Fairy Tales and Novels Aulnoy (Madame d', Marie-Catherine),1817 **Tellers, Tales, and Translation in Chaucer's Canterbury Tales** Warren Ginsberg,2015-11-26 Two features distinguish the Canterbury Tales from other medieval collections of stories the interplay among the pilgrims and the manner in which the stories fit their narrators In his new book Warren Ginsberg argues that Chaucer often linked tellers and tales by recasting a coordinating idea or set of concerns in each of the blocks of text that make up a Canterbury performance For the Clerk the idea is transition for the Merchant it is revision and reticence for the Miller it is repetition for the Franklin it is interruption and elision for the Wife of Bath it is self authorship for the Pardoner it is misdirection and subversion The parts connect because they translate one another By expressing the same concept differently the portraits of the pilgrims in the General Prologue the introductions and epilogues to the tales they tell and the tales themselves become intra lingual translations that begin to act like metaphors When brought together by readers they give the ensemble its inner cohesiveness and reveal what Walter Benjamin called modes of meaning Chaucer also restaged events across his poem They too become intra lingual translations Together with the linking passages that precede and follow a story these episodes are the ligaments that stabilize the Tales and underwrite its remarkable elasticity As much as the conceits that frame the work the pilgrimage and the tale telling contest Chaucer s internal translations guided the construction of his masterpiece and the way his audiences have continued to read it A *List of English Tales and Prose Romances Printed Before 1740* Arundell James Kennedy Esdaile,1912 Blackwood's

Tales of Royalty Elisabeth Wagner-Durand,Julia Linke,2020-07-20 The volume sheds light on Ancient Near Eastern kingship by focusing on its constant urge for legitimation Thus it highlights specific aspects like royal building activities warfare and wisdom and frames these into material and textual expressions that take the powerful form of narratives The contributions made in this volume look for specific topoi of kingship and examine which shapes they took and why The publication determines which narrative topoi have once been selected to legitimize kingship which media have been chosen to transmit these narratives and what kind of narrative strategies have been applied To consider both texts and images in the same margin the book is based on a dual approach referring to certain narrative themes both philological and archaeological material will be presented By joining diverse perspectives of scholars of material culture and texts and their various approaches the publication promises new and special insight into the connection of narration and legitimation in Mesopotamia It reflects Ancient Near Eastern kingship and its narrative strategies from a interdisciplinary and transmedial point of view and gives new insights into the matter of royal legitimation **Tales of Militant Chemistry** Alice

Lovejoy,2025-08-26 The untold story of film as a chemical cousin to poison gas and nuclear weapons shaped by centuries of violent extraction The history of film calls to mind unforgettable photographs famous directors and the glitz and hustle of the media business But there is another tale to tell that connects film as a material to the twentieth century's history of war destruction and cruelty This story comes into focus during World War II at the factories of Tennessee Eastman where photographic giant Kodak produced the rudiments of movie magic Not far away at Oak Ridge Kodak was also enriching uranium for the Manhattan Project uranium mined in the Belgian Congo and destined for the bomb that fell on Hiroshima While the world's largest film manufacturer transformed into a formidable military contractor across the ocean its competitor Agfa grew entangled with Nazi Germany's machinery of war After 1945 Kodak's film factories stood at the front lines of a new colder war as their photosensitive products became harbingers of the dangers of nuclear fallout Following scientists soldiers prisoners and spies through Kodak's and Agfa's global empires Alice Lovejoy links the golden age of cinema and

photography to colonialism the military industrial complex radioactive dust and toxic waste Revelatory and chilling Tales of Militant Chemistry shows how film became a weapon whose chemistry irrevocably shaped the world we live in today
