**A Cultural History of the Disney Fairy Tale** Tracey L. Mollet, 2020-11-21 This book charts the complex history of the relationship between the Disney fairy tale and the American Dream demonstrating the ways in which the Disney fairy tale has been reconstructed and renegotiated alongside and in response to important changes within American society In all of its fairy tales of the twentieth and twenty first centuries the Walt Disney studios works to sell its audiences the national myth of the United States at any one historical moment With analyses of films and television programmes such as The Little Mermaid 1989 Frozen 2013 Beauty and the Beast 2017 and Once Upon a Time 2011 2018 Mollet argues that by giving its fairy tale protagonists characteristics associated with good Americans and even by situating their fairy tales within America itself Disney constructs a vision of America as a utopian space An American Dictionary of the English Language Webster, 1845

*Remembering America* Lawrence R. Samuel, 2015-11-01 American history is ubiquitous underscoring everything from food to travel to architecture and design It is also emotionally charged frequently crossing paths with political and legal issues In *Remembering America* Lawrence R Samuel examines the place that American history has occupied within education and popular culture and how it has continually shaped and reflected our cultural values and national identity The story of American history Samuel explains is not a straight line but rather one filled with twists and turns and ups and downs its narrative path as winding as that of the United States as a whole Organized around six distinct eras of American history ranging from the 1920s to the present Samuel shows that our understanding of American history has often generated struggle and contention as ideologically opposed groups battled over ownership of the past As women and minorities gained greater power and a louder voice in the national conversation our perspectives on American history became significantly more multicultural bringing race gender and class issues to the forefront These new interpretations of our history helped to reshape our identity on both a national and an individual level Samuel argues that the fight for ownership of our past combined with how those owners have imparted history to our youth crucially affects who we are Our interpretation and expression of our country's past reflects how that self identity has changed over the last one hundred years and created a strong sense of our collective history one of the few things Americans all have in common *Educational Times*, 1897

**Fairy Tales and the Art of Subversion** Jack Zipes, 2007-05-07 The fairy tale may be one of the most important cultural and social influences on children's lives But until *Fairy Tales and the Art of Subversion* little attention had been paid to the ways in which the writers and collectors of tales used traditional forms and genres in order to shape children's lives their behavior values and relationship to society As Jack Zipes convincingly shows fairy tales have always been a powerful

discourse capable of being used to shape or destabilize attitudes and behavior within culture For this new edition the author has revised the work throughout and added a new introduction bringing this classic title up to date Fairy Tale Films Pauline Greenhill, Sidney Eve Matrix, 2010-08-06 This ISBN refers to the ebook edition of this text available directly from the publisher It has erroneously been listed as paperback by some online vendors The true paperback edition is indeed available at online vendors Paste this ISBN into the search box 9780874217810 In this the first collection of essays to address the development of fairy tale film as a genre Pauline Greenhill and Sidney Eve Matrix stress the mirror of fairy tale film reflects not so much what its audience members actually are but how they see themselves and their potential to develop or likewise to regress As Jack Zipes says further in the foreword Folk and fairy tales pervade our lives constantly through television soap operas and commercials in comic books and cartoons in school plays and storytelling performances in our superstitions and prayers for miracles and in our dreams and daydreams The artistic re creations of fairy tale plots and characters in film the parodies the aesthetic experimentation and the mixing of genres to engender new insights into art and life mirror possibilities of estranging ourselves from designated roles along with the conventional patterns of the classical tales Here scholars from film folklore and cultural studies move discussion beyond the well known Disney movies to the many other filmic adaptations of fairy tales and to the widespread use of fairy tale tropes themes and motifs in cinema **The Educational Times, and Journal of the College of Preceptors**, 1897 Stephen Crane, Journalism, and the Making of Modern American Literature Michael Robertson, 1997 This critical study of Stephen Crane s journalism examines the climate of change that had begun to blur the line between non fiction writing and fiction in Crane s era and provides insight into the masculine aesthetic Crane championed in his urban reportage travel writing and war correspondence **The Storyteller's Start-up Book** Margaret Read MacDonald, 1993 Instruction on how to tell stories Includes 12 tales from other countries Catalogue...authors, Titles, Subjects, and Classes Brooklyn Public Library, 1878 *Catalogue of the Mercantile Library of the City of Brooklyn*, 1878 **Catalogue of the Mercantile Library of Brooklyn: D-M** Mercantile Library Association of Brooklyn, 1878
