TALES OF JAPAN, 1986 Tales of Japan Miyeko Murase, 1986-01-01 Examines the paintings and prints which illustrate Japanese scrolls from the twelfth to the nineteenth centuries *The Postwar Developments of Japanese Studies in the United States* Helen Hardacre, 1998 This volume of twelve essays with useful bibliographies in the fields of history art religion literature anthropology political science and law documents the history of United States scholarship on Japan since 1945 **Critical Perspectives on Classicism in Japanese Painting** Elizabeth Lillehoj, 2004-01-01 In the West classical art inextricably linked to concerns of a ruling or dominant class commonly refers to art with traditional themes and styles that resurrect a past golden era Although art of the early Edo period 1600 1868 encompasses a spectrum of themes and styles references to the past are so common that many Japanese art historians have variously described this period as a classical revival era of classicism or a renaissance How did seventeenth century artists and patrons imagine the past Why did they so often select styles and themes from the court culture of the Heian period 794 1185 Were references to the past something new or were artists and patrons in previous periods equally interested in manners that came to be seen as classical How did classical manners relate to other styles and themes found in Edo art In considering such questions the contributors to this volume hold that classicism has been an amorphous changing concept in Japan just as in the West Troublesome in its ambiguity and implications it cannot be separated from the political and ideological interests of those who have employed it over the years The modern writers who first *Handbook to Life in Medieval and Early Modern Japan* William E. Deal, 2007 This book is an introduction the Japanese history culture and society from 1185 the beginning of the Kamakura period through the end of the Edo period in 1868 The Postwar Development of Japanese Studies in the United States Helen Hardacre, 2023-07-17 The present volume documents the postwar history of United States scholarship on Japan A careful selection of North American scholars under the general editorship of Helen Hardacre Reischauer Institute Professor of Japanese Religions and Society at Harvard University shows that a range of factors have directed Japanese studies in the United States since 1945 Among these factors are social and political change in Japan and the United States shifts in dominant scholarly concerns about Japan and changing evaluations of area studies The work consists of twelve essays in a wide variety of fields history art religion literature anthropology political science and law Each essay chronicles postwar scholarship in its particular discipline and provides a useful bibliography to serve further reference The general aim of the volume is to put current debates in historical perspective and to help assess the field's achievements It identifies areas requiring more work and charts directions for the future **The Practices of Painting in Japan, 1475-1500** Quitman E. Phillips, 2000 This book attempts to expand the grounds and methodology of studying Japanese art history by focusing on the conditions procedures events and social interplay that characterized the production of paintings in late fifteenth century Japan Though the book's ultimate concerns are art historical its analysis also draws heavily from the insights of sociology and

social history At its core is a fresh examination of the major primary documents of the period in an attempt to liberate the study from assumptions long embedded in the historiography of late medieval Japanese painting history Early chapters describe documents methods basic sites and conditions of painting before turning to the main contribution of the book painting considered as a body of social practices The production of painting in the late fifteenth century was profoundly social dynamically related to the circumstances of its agents Painters advisors assistants clients and others did not exert themselves simply to bring paintings into existence They sought advantages such as wealth and prestige met obligations and satisfied the demands of custom Surviving documents from the period present rich evidence of the involvement of such persons in the imperial court the Ashikaya Gozan community the great temples of Nara and the halls of local lords The author takes into account the patterns of expectation that existed at the various sites but does not construe them as static and mechanically determined Rather he shows that expectations evolved in response to changed conditions Although this study specifically addresses the last quarter of the fifteenth century it can aid future research in Japanese painting practice in other eras by serving as a model of how new interpretations can emerge from close documentary investigation

Cinema and Painting Angela Dalle Vacche, 1996 The visual image is the common denominator of cinema and painting and indeed many filmmakers have used the imagery of paintings to shape or enrich the meaning of their films In this discerning new approach to cinema studies Angela Dalle Vacche discusses how the use of pictorial sources in film enables eight filmmakers to comment on the interplay between the arts on the dialectic of word and image on the relationship between artistic creativity and sexual difference and on the tension between tradition and modernity Specifically Dalle Vacche explores Jean Luc Godard s iconophobia Pierrot Le Fou and Andrei Tarkovsky s iconophilia Andrei Rublev Kenji Mizoguchi s split allegiances between East and West Five Women around Utamaro Michelangelo Antonioni s melodramatic sensibility Red Desert Eric Rohmer s project to convey interiority through images The Marquise of O F W Murnau s debt to Romantic landscape painting Nosferatu Vincente Minnelli s affinities with American Abstract Expressionism An American in Paris and Alain Cavalier s use of still life and the close up to explore the realms of mysticism and femininity Th r se While addressing

issues of influence and intentionality Dalle Vacche concludes that intertextuality is central to an appreciation of the dialogical nature of the filmic medium which in appropriating or rejecting art history defines itself in relation to national traditions and broadly shared visual cultures Kyoto Visual Culture in the Early Edo and Meiji Periods Morgan Pitelka,Alice Y.

Tseng,2016-05-20 The city of Kyoto has undergone radical shifts in its significance as a political and cultural center as a hub of the national bureaucracy as a symbolic and religious center and as a site for the production and display of art However the field of Japanese history and culture lacks a book that considers Kyoto on its own terms as a historic city with a changing identity Examining cultural production in the city of Kyoto in two periods of political transition this book promises to be a major step forward in advancing our knowledge of Kyoto s history and culture Its chapters focus on two periods in Kyoto s history in which the old capital was politically marginalized the early Edo period when the center of power shifted from the old imperial capital to the new warriors capital of Edo and the Meiji period when the imperial court itself was moved to the new modern center of Tokyo The contributors argue that in both periods the response of Kyoto elites emperors courtiers tea masters municipal leaders monks and merchants was artistic production and cultural revival As an artistic cultural and historical study of Japan s most important historic city this book will be invaluable to students and scholars of Japanese history Asian history the Edo and Meiji periods art history visual culture and cultural history **Japanese Woodblock**
