Vol.1 - new quarterly ser. no.20, 1884 *The Possible Present* Ugo Perone, 2011-10-01 *The Possible Present* unfolds from within a freely reinterpreted hermeneutic perspective and provides an original theoretical proposal on the topic of time In dialogue especially with the philosophies of Husserl and Heidegger but resorting also to suggestions coming from a theological background Barth and Bonhoeffer the work proposes a personal and original theory of time centered on a conception of the present that does not reduce temporality to a succession of mere instants When one claims that time is ungraspable one refers neither to the past which is rather irretrievable nor to the future which is rather uncertain but to the present The present in which we are is in fact what fades from our hands without break The present is a decisive threshold for finite existence It is the threshold where past and future meet and can give birth to a livable horizon of meaning Dilating the present and giving it a meaningful chance to be is a task for philosophy It is the attempt of giving time to time and also giving it shape place and space To succeed at this task while rediscovering the sources of a narrative way of thinking that in truth it has never abandoned philosophy must go back and turn time into the primary object of discourse like in stories which are precisely the attempt at disposing the temporal flow of events according to a meaning Perone argues that in time however what passes is not simply decline but rather something irreducible an exteriority that must be said **The New Lovecraft Circle** Robert M. Price, 2004-03-30 H P Lovecraft was the eerily prescient genius who first electrified readers in *Weird Tales* magazine His tales changed the face of horror forever and inspired the bloodcurdling offerings of a new generation These brilliant dark visionaries forge grisly trails through previously uncharted realms of mortal terror *THE PLAIN OF SOUND* by Ramsey Campbell In the beginning they could find no source for the throbbing vibrations in the end they could find no escape *THE HORROR ON THE BEACH* by Alan Dean Foster Along the coast of Santa Barbara the mighty Pacific Ocean can no longer contain or conceal an ancient insatiable evil stirring in its
