1982 and 1985 the author presented over a hundred live radio features about Tahoe's history and the environment over Tahoe radio station KTHO. Lane returned to the radio airways in 1995 this time with Tahoe radio station KOWL AM 1490 and has since broadcast over 3000 radio tales. Don Lane's *Tales of Tahoe* The book is a distinctive collection of short stories about the colorful people, the characters, the dreamers and schemers that lived and worked in and around Lake Tahoe and the Sierras during the pioneer days of the Gold Rush and during the Comstock Years people like Mark Twain, Joaquin Murrieta and Lola Montez. It is also a collection of true stories about the unheralded pioneer men and women that were in their own simple way inspiring. There are also tales about historic events in our region's diverse history and off beat tales about ghosts, bandits and even about true love. The collection of tales weaves serious history with light hearted stories without editorializing or fictionalizing by the author as the emphasis has been on historical integrity and authenticity. The stories have been gathered from historical journals, diaries, museum collections, archives and history records. The stories are both entertaining and educational and hopefully will provide insight into a time long past and provide a greater awareness and appreciation for the people that have been forgotten over the years as time has passed by.

Fleeting Moments Gunther Barth, 1990-10-18 The tension between nature and culture which accompanies the rise of any large society has become a subject of great concern in our time. In this compelling study Gunther Barth, acclaimed author of *City People: The Rise of Modern City Culture in Nineteenth Century America* identifies fleeting moments of concord between nature and culture in the course of American history. During the search for the Wilderness Passage, the progress of the Lewis and Clark expedition and the building of park cemeteries and big city parks, Americans realized that nature was not merely a force to be reckoned with, not merely a resource to be exploited, but also an integral component of their lives. Through the engineering of nature and culture in the urban environment, the energetic attempts to conserve large scale nature in the United States emerged as an offspring of the big city. Heightening our understanding of the historical complexity of the relationship between nature and culture and suggesting that harmony between the two is a mark of civilization, this original study will be an invaluable guide to anyone concerned with the quality of life in America past and future.

Tales from the Canadian Rockies Brian Patton, 2012-12-18 Take a breath of fresh mountain air and feel the magic of an historical Canadian landmark in *Tales from the Canadian Rockies*. You'll meet a host of unforgettable characters like botanist David Douglas, after whom the Douglas fir is named, and geologist James Hector whose unruly horse is forever commemorated in the names of Kicking Horse River and Pass. You'll also experience the hunger and hardships of artist Paul Kane and indomitable Mrs. Lane who waded across no fewer than 17 meltwater rivers in one day.
