## **Tales Of The Unconscious:**

*Tales from the Unconscious* Christopher Gibson, 2021-07-20 This book is a collection of stories from the anarchic world of the unconscious

Fairy Tales and the Social Unconscious Ravit Raufman, 2018 The book combines two main perspectives the study of the social unconscious and the study of fairy tales Examining different versions of fairy tales told by different ethnic communities teaches us about the relations between universal and local cultural aspects of the social unconscious Exploring the unique status of fairy tales as located on the border line between concrete somatic and abstract linguistic realms sheds light on different levels of the human mind The book focuses on a specific phenomenon common in fairy tales a realization of idiomatic expressions a phenomenon in which an abstract mental idea is hidden behind a concrete event embedded in the plot Deciphering the abstract idea out of the pictorial world of the fairy tale enables to understand the stories in a way which is not available otherwise The book suggests interdisciplinary examination reminding us the rich deep messages hidden in fairy tales and connecting us to early developments in the field of psychoanalysis by suggesting new interpretation to old ancient material The book may be of interest to therapists in the clinical community as well as to everyone who is fascinated by the fantastic magical world of fairy tales Provided by publisher

Tales of the Unconscious Alexander Grinstein, 1999 Alexander Grinstein is known to all scholars of psychoanalysis as the creator of the Index of Psychoanalytic Writings In the volume in hand they will discover that he is a consummate storyteller and they will see his mind in action The method in all the papers of this very readable collection is the presentation of a text whether it be a story a film or a novel written by Oscar Wilde's great uncle followed by an attempt to understand its details both culturally and clinically Dr Grinstein does not hesitate to use his balanced broad based psychoanalytic knowledge to draw inferences from the texts but he is scrupulous in establishing the historical facts concerned with his subject It is astonishing that he can make it look so easy From the Preface by Anton O Kris M D
