Teaching the Transatlantic Eighteenth Century Jennifer Frangos, Cristobal Silva, 2020-05-15 The central axiom of Teaching the Transatlantic Eighteenth Century is

that the classroom functions as a site for research and collaboration not only as a space that reflects the research of individual teacher scholars but as a generative site to put ideas theories and methodologies into play Whereas transatlanticism has transformed research practices over the last decade the present collection is concerned with exploring what this transformation looks like in the classroom and how the classroom continues to shape research practices in the field Contributors address issues such as how the traffic in ideas people and commodities between Europe Africa and the New World are considered in classroom settings how inter and intra departmental collaborations reshape our approaches to teaching the eighteenth century how and why Transatlantic Studies can function as an introduction to college study and how it can help more advanced students to revise their notions of nation place and identity By now there are a number of anthologies available to help instructors determine what transatlantic material to teach but none that engage why and how to teach it or what teaching it can do for us our students and our profession Rather than simply providing reading lists or a collection of anecdotes about lesson plans Teaching the Transatlantic Eighteenth Century emphasizes theorizing critical engagements with interdisciplinary focus on and the transformative potential of Transatlantic Studies The primary market for Teaching the Transatlantic Eighteenth Century is university college and community college professors researchers and students with three specific subgroups 1 Teachers new to Transatlantic Studies Teachers coming to Transatlantic Studies for the first time will find both suggestions for materials or topical units to be integrated into existing courses e g a unit on transatlantic exchange that could figure in an eighteenth century literature survey course and ideas for developing new courses altogether 2 Teachers already teaching and or researching in the field of Transatlantic Studies Such scholars will find material to broaden their approach to familiar courses and subjects inter or cross disciplinary focus new texts successful clusterings of texts or themes or approaches and ideas for team teaching or linking courses with other faculty 3 Teachers involved in Transatlantic Studies programs especially those that focus on contemporary Post WWII context e g at the University of Dundee the University of North Carolina Chapel Hill and the University of Birmingham Teaching the Transatlantic Eighteenth Century will provide historical context for current geopolitical studies perspective on the dynamics and historical and political forces occurring in the eighteenth century and contributing to 19th 20th and 21st century politics nations and paradigms

The House of the Seven Gables Nathaniel Hawthorne, 2009-12-15 This novel was intended to be far sunnier than The Scarlet Letter and to illustrate the folly of tumbling down on posterity an avalanche of ill gotten gold or real estate Critics have faulted the book for explaining away hereditary guilt or for a contradictory denial of it but Denis Donoghue offers fresh appreciation of the novel

Herman Melville Milton Meltzer, 2004-02-01 Biography of the writer of Moby Dick and Typee

Bad Education Lee Edelman, 2022-12-05 Long awaited after No Future and making queer theory controversial again Lee Edelman's Bad Education proposes a queerness without positive identity a queerness understood as a figural name for the void itself unnamable around which the social order takes shape Like Blackness woman incest and sex

queerness as Edelman explains it designates the antagonism the structuring negativity preventing that order from achieving coherence But when certain types of persons get read as literalizing queerness the negation of their negativity can seem to resolve the social antagonism and totalize community By translating the nothing of queerness into the something of the queer the order of meaning defends against the senselessness that undoes it thus mirroring Edelman argues education s response to queerness its sublimation of irony into the meaningfulness of a world Putting queerness in relation to Lacan s ab sens and in dialogue with feminist and Afropessimist thought Edelman reads works by Shakespeare Jacobs Almod var Lemmons and Haneke among others to show why queer theory s engagement with queerness necessarily results in a bad education that is destined to teach us nothing

Visionary of the Word Brian Yothers,Jonathan A Cook,2017-01-15 Visionary of the Word brings together the latest scholarship on Herman Melville s treatment of religion across his long career as a writer of fiction and poetry The volume suggests the broad range of Melville s religious concerns including his engagement with the denominational divisions of American Christianity his dialogue with transatlantic currents in nineteenth century religious thought his consideration of theological and philosophical questions related to the problem of evil and determinism versus free will and his representation of the global contact among differing faiths and cultures These essays constitute a capacious response to the many avenues through which Melville interacted with religious faith doubt and secularization throughout his career advancing our understanding of Melville as a visionary interpreter of religious experience who remains resonant in our own religiously complex era

Selected Stories Nathaniel Hawthorne,2011-06 Dark weird psychologically complex Hawthorne s short fiction continues to fascinate readers Brenda Wineapple has made a generous selection of Hawthorne s stories including some of his best known tales as well as other less often anthologized gems In her introduction she explores a writer whose best stories as Wineapple has elsewhere observed penetrate the secret horrors of ordinary life those interstices in the general routine where suddenly something or someone shifts out of place changing everything The John Harvard Library edition reproduces the authoritative texts of Hawthorne s stories in The Centenary Edition of the Works of Nathaniel Hawthorne

On the Origin of Species Charles Darwin,1909 *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1908

The Fluid Text John Bryant,2002 The first coherent theoretical critical and editorial approach to the study of literary revision

Excursions with Kierkegaard Edward F. Mooney,2012-12-20 Noted Kierkegaard scholar Edward Mooney guides the reader through the major themes of the Danish philosopher s life and thought Each chapter frames a striking issue usually encapsulated in a short passage from Kierkegaard and pursues it directly and deeply Kierkegaard speaks to our need for self understanding our need to negotiate the tensions between surprisingly subtle capacities for communication and surprisingly easy descent into clich s and banality The chapter of this book follow and re animate Kierkegaard s brilliant and humorous discussions of death and authenticity of the maternal and paternal in faith and self transformations of self deception and obsessive judgmentalism of love and the search for stable

centers of subjectivity as refinement of responsiveness to others the world and all we can value These evocative explications aim to match his stride in tracking deep human concerns that evade academic and cultural pigeonholes Like Hamlet Kierkegaard gives us a poem unlimited that is open to endless reflection Mooney s aim is to bring his matchless impulse and aspiration once more to life

Herman Melville and the Politics of the Inhuman Michael Jonik,2018-02-22 Studies of the writing of Herman Melville are often divided among those that address his political historical or biographical dimensions and those that offer creative theoretical readings of his texts In Herman Melville and the Politics of the Inhuman Michael Jonik offers a series of nuanced and ambitious philosophical readings of Melville that unite these varied approaches Through a careful reconstruction of Melville s interaction with philosophy Jonik argues that Melville develops a notion of the inhuman after Spinoza s radically non anthropocentric and relational thought Melville s own political philosophy in turn actively disassembles differences between humans and nonhumans and the animate and inanimate Jonik has us rethink not only how we read Melville but also how we understand our deeply inhuman condition

Sacred Uncertainty Brian Yothers,2015-04-30 Yothers Sacred Uncertainty examines Melville s engagement with religious difference both within American culture and around the world It is impossible to understand Melville s wider engagement with religious and cultural questions however without understanding the fundamental tension between self and society self and others that underlies his work and that is manifested in particular in the way in which he interacts with other writers There is almost certainly no more concrete or reliable way to get at Melville s affirmations of and arguments with these interlocutors than in the markings and annotations that appear in his copies of many of their works so Yothers examines Melville s marginalia for clues to Melville s thinking about self other and difference Sacred Uncertainty provides a much needed exploration of Melville s encounter with and reflection upon religious difference
