observe religious procedures alongside civil ones and while marriage is relatively straightforward divorce raises more complications. The situation of women in limping marriages in particular has raised debates among Muslims and the Australian public regarding the autonomy of Muslim women and the function of community family law processes. Based upon in-depth research with divorced Muslim women, community leaders and local religious authorities, Buckley reveals the complexities facing Muslim women in negotiating family expectations, cultural norms and traditional Islamic laws. Through their stories and experiences, the Muslim women in this book demonstrate how they are able to navigate the intricacies of religious and civil processes and in so doing are reformulating what a complete divorce looks like. Islamic Studies Series Volume 29 Love & sex in Islam, *Gendered Morality* Zahra M. S. Ayubi, 2019-07-30. Islamic scriptural sources offer potentially radical notions of equality. Yet medieval Islamic philosophers chose to establish a hierarchical male-centered virtue ethics. In *Gendered Morality*, Zahra Ayubi rethinks the tradition of Islamic philosophical ethics from a feminist critical perspective. She calls for a philosophical turn in the study of gender in Islam based on resources for gender equality that are unlocked by feminist engagement with the Islamic ethical tradition. Developing a lens for a feminist philosophy of Islam, Ayubi analyzes constructions of masculinity, femininity and gender relations in classic works of philosophical ethics. In close readings of foundational texts by Abu Hamid Muhammad al-Ghazali, Nasir ad-Din Tusi and Jalal ad-Din Davani, she interrogates how these thinkers conceive of the ethical human being as an elite male within a hierarchical cosmology built on the exclusion of women and nonelites. Yet in the course of prescribing ethical behavior, the ethicists speak of complex gendered and human relations that contradict their hierarchies. Their metaphysical premises about the nature of the divine, humanity and moral responsibility indicate a potential egalitarian core. *Gendered Morality* offers a vital and disruptive new perspective on patriarchal Islamic ethics and metaphysics, showing the ways in which the philosophical tradition can support the aims of gender justice and human flourishing. Family law in contemporary Iran, Marianne Bøe, 2015-01-20. Passed into law over a decade before the Revolution, the Family Protection Law quickly drew the ire of the conservative clergy and the Ayatollah Khomeini. In 1979, in fact, it was one of the first laws to be rescinded following the revolution. The law was hardly a surprising target, however, since women's status in Iran was then and continues now to be a central concern of Iranian political leaders, media commentators and international observers alike. Taking up the issue of women's status in a modern context, Marianne Bøe offers a nuanced view of how women's rights activists assert their rights within an Islamic context by weaving together religious and historical texts and narratives. Through her substantial fieldwork and novel analysis, Bøe undermines both the traditional view of Islamic feminism as monolithic and clears a path to a new understanding of the role of women's rights activists in shaping and synthesizing debates on the shari'a, women's rights and family law. As such, this book is essential for anyone studying family law and the role of women in contemporary Iran. Comparative Law - Engaging Translation, Simone Glanert, 2014-06-27. In an era marked by processes of economic, political and legal integration

that are arguably unprecedented in their range and impact the translation of law has assumed a significance which it would be hard to overstate The following situations are typical A French law school is teaching French law in the English language to foreign exchange students Some US legal scholars are exploring the possibility of developing a generic or transnational constitutional law German judges are referring to foreign law in a criminal case involving an honour killing committed in Germany with a view to ascertaining the relevance of religious prescriptions European lawyers are actively working on the creation of a common private law to be translated into the 24 official languages of the European Union Since 2004 the World Bank has been issuing reports ranking the attractiveness of different legal cultures for doing business All these examples raise in one way or the other the matter of translation from a comparative legal perspective However in today's globalised world where the need to communicate beyond borders arises constantly in different guises many comparatists continue not to address the issue of translation This edited collection of essays brings together leading scholars from various cultural and disciplinary backgrounds who draw on fields such as translation studies linguistics literary theory history philosophy or sociology with a view to promoting a heightened understanding of the complex translational implications pertaining to comparative law understood both in its literal and metaphorical senses
