A Critical Discourse Analysis of Family Literacy Practices Rebecca Rogers, 2003-06-20 In this groundbreaking cross disciplinary book Rebecca Rogers explores the complexity of family literacy practices through an in depth case study of one family the attendant issues of power and identity and contemporary social debates about the connections between literacy and society The study focuses on June Treader and her daughter Vicky urban African Americans labeled as low income and low literate Using participant observation ethnographic interviewing photography document collection and discourse analysis Rogers describes and explains the complexities of identity power and discursive practices that June and Vicky engage with in their daily life as they proficiently critically and strategically negotiate language and literacy in their home and community She explores why despite their proficiencies neither June or Vicky sees themselves as literate and how this and other contradictions prevent them from transforming their literate capital into social profit This study contributes in multiple ways to extending both theoretically and empirically existing research on literacy identity and power

Critical discourse analysis The analytic technique of critical discourse analysis is brought into the area of family literacy The detailed explanation interpretation and demonstration of critical discourse analysis will be extremely helpful for novices learning to use this technique This is a timely book for there are few ethnographic studies exploring the usefulness and limits of critical discourse analysis Combines critical discourse analysis and ethnography This new synthesis which is thoroughly illustrated offers an explanatory framework for the stronghold of institutional discursive power Using critical discourse analysis as a methodological tool in order to build critical language awareness in classrooms and schools educators working toward a critical social democracy may be better armed to recognize sources of inequity

Researcher reflexivity Unlike most critical discourse analyses throughout the book the researcher and analyst is clearly visible and complicated into the role of power and language This practice allows clearer analysis of the ethical moral and theoretical implications in conducting ethnographic research concerned with issues of power

A critical perspective on family literacy Many discussions of family literacy do not acknowledge the raced classed and gendered nature of interacting with texts that constitutes a family s literacy practices This book makes clear how the power relationships that are acquired as children and adults interact with literacy in the many domains of a family s literacy lives

A Critical Discourse Analysis of Family Literacy Practices Power In and Out of Print will interest researchers and practitioners in the fields of qualitative methodology discourse analysis critical discourse studies literacy education and adult literacy and is highly relevant as a text for courses in these areas

Living the work Azadeh F. Osanloo, Christa Boske, 2015-10-07 Written as a collaborative between children families teachers school leaders scholars and community organisation representatives this book has given everyone involved

a platform to express his or her individual voice Chapters center on authors lived experiences and the book is grounded in promoting social justice and equity

Critical Literacy/critical Teaching Cheryl Dozier, Peter H. Johnston, Rebecca Rogers, 2006 This book describes and documents an exciting new approach to educating literacy teachers The authors show how to help teachers develop their own critical literacy while also preparing them to accelerate the literacy learning of struggling readers The text takes readers inside a literacy lab in a high poverty urban elementary school reveals the instructional approach in action and provides many excellent examples of critically responsive teaching Featuring a synthesis of several fields of theory and research this book illustrates teacher preparation and development as personal and social transformation demonstrating that this process requires changing the ways teachers think about students language culture literacy learning and themselves as educators provides pedagogical tools including the history of the innovative literacy lab the context of the instructional interactions and the transition from a university based to a school based project and combines critical and accelerative literacy instruction showing how teachers can accelerate the slowest developing readers in their classrooms and also build a sense of engagement for students with the social world

Choice Words Peter Johnston, 2023-10-10 In productive classrooms teachers don't just teach students math and reading skills they build emotionally and relationally healthy learning communities Teachers create intellectual environments that produce not only technically competent students but also caring secure actively literate human beings Choice Words How Our Language Affects Children's Learning shows how teachers can accomplish this by using their most powerful teaching tool language Throughout this book author Peter Johnston provides examples of seemingly ordinary words phrases and uses of language that are pivotal in the orchestration of the classroom Grounded in a study by accomplished literacy teachers the book demonstrates how and what we say and don't say have surprising consequences for what children learn and for who they become as literate people Students learn how to become strategic thinkers not merely learning the literacy strategies but adapting them to their lives outside of the classroom In addition Johnston examines the complex learning that teachers produce in classrooms that is hard to name and thus is not recognized by tests by policy makers by the general public and often by teachers themselves yet is vitally important This book will be enlightening for any teacher who wishes to be more conscious of the many ways their language helps children acquire literacy skills and view the world their peers and themselves in new ways
