The Story Of Naxos Nicolas Soames, 2012-05-03 In 1987 a budget classical record label was started in Hong Kong by Klaus Heymann a German businessman who loved classical music. Swiftly it gained a world wide reputation for reliable new digital recordings of the classics at a remarkably low price. Despite opposition from the classical record establishment it grew at a remarkable pace and soon expanded into opera, early music, contemporary music and specialist repertoire so that it became appreciated by specialist collectors as well as the general music lover. It is now the leading provider of classical music and as an innovator in digital delivery. At the heart of Naxos is one man Klaus Heymann. The combination of his broad knowledge of classical music and his acute business acumen has enabled him to build the most varied classical music label in the world but also the most effective distribution network to ensure that his recordings are available everywhere. This fascinating story explains how it happened how a one time tennis coach in Frankfurt became a classical recording mogul in Hong Kong and how at the age of 75 he still holds the reins as firmly as ever.

Handbook of Research on the Future of Advertising and Brands in the New Entertainment Landscape Miguélez-Juan, Blanca, Bonales-Daimiel, Gema, 2023-01-09 In a globalized world full of noise brands are constantly launching messages through different channels. For the last two decades brands, marketers and creatives have faced the difficult task of reaching those individuals who do not want to watch or listen to what they are trying to tell them. By producing fewer ads or making them louder or more striking more brands and communications professionals are not going to get those people to pay more attention to their messages; they will only want to avoid advertising in all media. The Handbook of Research on the Future of Advertising and Brands in the New Entertainment Landscape provides a theoretical, reflective and empirical perspective on branded content and branded entertainment in relation to audience engagement. It reviews different cases about branded content to address the dramatic change that brands and conventional advertising are facing short term. Covering topics such as branded content measurement tools, digital entertainment culture and government storytelling this major reference work is an excellent resource for marketers, advertising agencies, brand managers, business leaders and managers, communications professionals, government officials, non profit organizations, students and educators of higher education, academic libraries, researchers and academicians.
