Social Casework Methodology: A Skills Handbook for the Caribbean Human Services Worker Emmanuel Janagan Johnson, Camille L. Huggins, 2019-10-11

This brief is a practical reference contextualizing social casework methodology in a specifically Caribbean cultural and historical context It emerged from the experiences of human services workers and educators working in the Caribbean The concepts of social welfare policy and programs are relatively new to the Caribbean as historically Christian based organizations and local communities took the responsibility of caring for those in need As social problems grew more complicated and threatened the security of the nation e g gang violence it became clear that governments of these small island states needed to provide a systematic approach in dealing with these social problems to help their citizens have a better quality of life Social Casework Methodology A Skills Handbook for the Caribbean Human Services Worker outlines a systematic approach that human services workers will find useful while working with clients in the Caribbean It also is an easy to use text that defines social casework methodology components of the methods case histories and exercises for social work students interested in working in the human services sector in the Caribbean

Davis's Patient-Practitioner Interaction Gina Maria Musolino, Carol M. Davis, 2025-03-24 This best selling textbook now in its seventh edition is the essential resource to foster the self awareness and communication skills needed by health professionals in providing ethical compassionate and professional care for their patients The book begins by encouraging readers to understand change and evaluate their patterns of response so that they can adapt to patients in a range of stressful or contentious situations

Through holistic self awareness taking into account one's family history and personal values the book then discusses methods of stress management before moving through the most effective ways to support and communicate with patients There are chapters on establishing rapport assertiveness and conflict resolution cultural sensitivity leadership spirituality and patient education Specific issues around communicating with terminally ill patients or those with disabilities are also covered Fully updated throughout the seventh edition now features a new chapter devoted specifically to Justice Equity Diversity and Inclusion plus a new chapter covering professional formation in transitions from classroom to clinical education including telehealth patient practitioner interaction PPI interprofessional education and early career pathways The new edition is informed by the national Healthy People 2030 objectives while also offering further coverage of the social determinants of health biopsychosocial aspects of health and healing and sexuality and sexual health Featuring interactive and online learning activities based on real life clinical situations as well as vignettes designed to make learning active and engaging this invaluable text is ideal for any developing professional in the health professions Teaching Counselors and Therapists Karen Eriksen, Garrett McAuliffe, 2001-08-30 A guide to innovative mental health education is urgently needed Despite the hundreds of programs in existence for training students in counseling human service social work and psychology teachers in such programs have relied on an informal network of information exchange to guide their teaching practice Yet constructivist and developmental theories now point to sound innovative practices for teaching This volume delineates those practices Despite years of research on effective adult education university teaching fails in practice to incorporate research supported teaching principles Current university instruction is still dominated by the teacher as authority The teacher downloads information from the front of the class and expects students to regurgitate it in papers and on exams The authors offer a different vision of classrooms that are characterized by the themes of meaning making collaboration equality and activity in the learning environment **Promotion Fitness Examination Study Guide**, 2003 **Promotion Fitness Examination**, 1999 *Interview Art and Skill* Marcella B. Brenner, E. James Lieberman, 1980 **Handbook of Counselor Preparation** Karen Eriksen, 2011-12 Published in cooperation with the Association for Counselor Education and Supervision ACES

Human Behavior Theory Roberta Greene, 2017-09-29 In recent years advocates for civil rights for minorities women and gays and lesbians have become more informed consumers of mental health services As a result social work practitioners need to prepare themselves to serve diverse constituencies for who previously held behavioral and cultural assumptions have proven not to be universally applicable The purpose of Greene's book is to help students and practitioners better understand how social workers have used human behavior theories to more competently address variations in group and community membership within the social worker client encounter The book's approach is largely thematic Most of the chapters explore how particular assumptions of a human behavior theory psychoanalytic theory psychodynamic ego psychology theory systems theory behavioral theory symbolic interaction theory feminist theory constructionist theory small group theory and an

ecological perspective have been used to answer issues related to cultural diversity The challenges and limitations of each theory s applications across varying client constituencies are discussed throughout What sorts of new conceptual issues for the practitioner of family services are raised in work with minority families for example or with lesbian families How does a specific theory help or not help in group specific interventions and evaluations Intended as a companion volume to the widely adopted human behavior text by Greene and Ephross Greene s new book fills the need for a wide synthetic reading of the recent literature
