John Ford's Political Theatre Lisa Hopkins,1994 Monarchs, Ministers, and Maps David Buisseret,1992-12-15 These diverse essays investigate political factors behind the rapid development of cartography in Renaissance Europe and its impact on emerging European nations By 1500 a few rulers had already discovered that better knowledge of their lands would strengthen their control over them by 1550 the cartographer s art had become an important instrument for bringing territories under the control of centralized government Throughout the following century increasing governmental reliance on maps demanded greater accuracy and more sophisticated techniques This volume a detailed survey of the political uses of cartography between 1400 and 1700 in Europe answers these questions When did monarchs and ministers begin to perceive that maps could be useful in government For what purposes were maps commissioned How accurate and useful were they How did cartographic knowledge strengthen the hand of government By focusing on particular places and periods in early modern Europe the chapters offer new insights into the growth of cartography as a science the impetus behind these developments often rulers attempting to expand their power and the role of mapmaking in European history The essay on Poland reveals that cartographic progress came only under the impetus of powerful rulers another explores the French monarchy s role in the burst of scientific cartography that marked the opening of the splendid century Additional chapters discuss the profound influence of cartographic ideas on the English aristocracy during the sixteenth century the relation of progress in mapmaking to imperialistic goals of the Spanish and Austrian Habsburgs and the supposed primacy of Italian mapmaking following the Renaissance Contributors to this volume are Peter Barber David Buisseret John Marino Michael J Mikos Geoffrey Parker and James Vann These essays were originally presented as the Kenneth Nebenzahl Jr Lectures in the History of Cartography at the Newberry Library The Burley manuscript Peter Redford,2017-03-17 The Burley manuscript is a miscellany compiled in the late sixteenth and early seventeenth century unique in size and variety In this study annotated transcriptions are given of all of the private letters in English and all the English verse Incipit transcriptions and identification are provided for each of the other items including those in foreign
