Plan and Finance Your Family's College Dreams: A Parent's Step-By-Step Guide from Pre-K to Senior Year

Peter Mazareas, 2016-06-14 Planning and paying for a college education is a daunting task for most parents. It is a stressful and costly process that needs a well thought out academic and financial strategy. This guide offers just that. Two of the nation's leading college planning and financing experts provide clear step by step guidance on how to successfully save, plan for, apply to, and finance a college education. Age and grade appropriate guidance empowers families with children of all ages with detailed information on preparing financing and successfully applying to college. Financing a college education requires a good look at all available options: savings, free money, financial aid, and loans. Finding the right savings vehicle and investments is important. Learn the pros and cons of various savings and investment options including Bank accounts, 529 Plans, Coverdell Education Savings Accounts, and more so you can begin to develop your plan. Easy to understand explanations help parents better understand college loans including details about federal and private loans, consolidation, and refinancing of loans as well as a discussion on what it means to co-sign a loan. Based on the expert advice presented in this book, parents will be able to create a personalized college admission and financing plan that is unique to their family.

College Without High School Blake Boles, 2009-09-01 Because the real world is the best education, High school can be boring. High school curriculum can be frustrating and out of touch. So what is the answer for young people whose creativity, bright ideas, and boundless energy are being stifled in that over-scheduled and grade-driven environment? What would you do if you could go to college without going to high school? Would you travel abroad, spend late nights writing a novel, volunteer in an emergency room, or build your own company? What dreams would you be pursuing right now? *College Without High School* shows how independent teens can self-design their high school education by becoming unschooled. Students begin by defining their goals and dreams and then pursue them through a combination of meaningful and engaging adventures. It is possible to pursue your dreams and gain admission to any college of your choice. Boles shows how to fulfill college admission requirements by proving five preparatory results: intellectual passion, leadership, logical reasoning, background knowledge, and the capacity for structured learning. He then offers several suggestions for life-changing confidence-building adventures that will demonstrate those results. This intriguing approach to following your dreams and doing college prep on your own terms will be welcomed by students and their parents.
