**Re-Imagining Mary** Mariann Burke,2009 Artists plumb the depths of soul which Jung calls the collective unconscious the inheritance of our ancestors psychic responses to life s drama In this sense the artist is priest mediating between us and God The artist introduces us to ourselves by inviting us into the world of image We may enter this world to contemplate briefly or at length Some paintings invite us back over and over again and we return never tiring of them It is especially these that lead us to the Great Mystery beyond image Re Imagining Mary A Journey through Art to the Feminine Self is about meeting the Cosmic Mary in image and imagination the many facets of the Mary image that mirror both outer reality and inner feminine soul Jungian analyst Mariann Burke offers personal reflections and suggests symbolic meanings in works by several artists including Fra Angelico Albrecht Durer Henry Ossawa Tanner Nicolas Poussin Parmigianino Duccio di Buoninsegna Salvador Dali Andy Warhol and Frederick Franck Aspects of Mary explored include Mary not only as Mother of

God a title from the Judeo Christian tradition but as Mother God a title reaching back to an ancient longing for a Female Divinity In western Christianity this Mary bears the titles and the qualities worshipped for thousands of years in the Female images of God and Goddess These titles include Mary as Sorrowful One and as Primordial Mother Recovering Mary both as light and dark Madonna plays a crucial role in humanity s search for a divinity who reflects soul Also discussed is Mary as the sheltering Great Mother that Piero della Francesca suggest in the Madonna del Parto and Mater Misericordia Frederick Franck s The Original Face and the Medieval Vierge Ouvrante also suggest this motif of Mary as Protector of the mystery of our common Origin Franck s inspiration for his sculpture of Mary was the Buddhist koan What is your original face before you were born What is spirituality What does it mean to grow spiritually and psychologically closer to the Feminine Self How can we begin to see the outer image as a manifestation a projection of the psyche Can we be challenged by being betwixt and between a male dominated Church without a recognized female divinity where God is generally imagined external to the soul and a more feminine depth psychological approach to the Marian mystery and to the Feminine Self Will we answer the call of the mystic within us If so how will we be changed

Facing the Dragon Robert L. Moore, 2003 Structured around a series of lectures presented at the Jung Institute of Chicago in a program entitled Jungian Psychology and Human Spirituality Liberation from Tribalism in Religious Life this book length essay attacks the related problems of human evil spiritual narcissism secularism and ritual and grandiosity Robert Moore dares to insist that we stop ignoring these issues and provides clear sighted guidance for where to start and what to expect Along the way he pulls together many important threads from recent findings in theology spirituality and psychology and brings us to a point where we can conceive of embarking on a corrective course Traditional doctrinal and historical interpretation both rely heavily on rational analysis But from the disciples at Emmaus to the beginnings of the present century it has been the impact of scripture upon the human heart that has changed human lives In recent decades this impact has been strengthened by advances in linguistic and literary theory by such disparate influences as feminism structuralism Jungianism deconstructionism the analysis of archaic imagery and myth the recovery of Gnostic texts and finally an openness to pluralism whether ethnic geographic religious or interpretive All of these factors are treated here with a brevity and comprehensiveness which convincingly show that the reader of scripture has a creative and not merely passive role If you would understand the deepest roots of terrorism greed and religious fanaticism read Facing the Dragon But be forewarned you may find some offshoots in your own garden June Singer Jungian analyst author of Boundaries of the Soul Robert Moore Phd was an internationally recognized psychotherapist and consultant in private practice in Chicago He was considered one of the leading therapists specializing in psychotherapy with men because of his discovery of the Archetypal Dynamics of the Masculine Self King Warrior Magician Lover He served as Distinguished Service Professor of Psychology Psychoanalysis and Spirituality at the Graduate Center of the Chicago Theological Seminary and has served as a Training Analyst at the C G Jung Institute of Chicago He is Co founder of the

Chicago Center for Integrative Psychotherapy      The Discerning Heart Wilkie Au, Noreen Cannon Au, 2006 Integrating the wisdom of Christian tradition and psychological findings on effective decision making this book presents a view of Christian discernment that honors the body spirit unity of the person and the broad and mysterious ways we can be led by the spirit of God in our life choices Going beyond discernment skills and concrete practices this book presents a coherent theoretical understanding of discernment that grounds the many spiritual practices used by Christians today By providing a broad and inclusive understanding of the multiple ways God can provide guidance to individuals this book helps individuals to honor the unique and idiosyncratic way that they receive divine guidance as well as provides guidelines that guard against possible self deception and personal blind spots While including anecdotal accounts and practical elements of Christian discernment this book provides a conceptual understanding of discernment that will be helpful for those training to be professional ministers pastors priests religious counselors and spiritual directors It is unique in applying Christian tradition and contemporary psychological insights to the process of discernment      The Community of the Weak Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story      A Theology of God-talk J. Timothy Allen, 2002 This thoughtful book offers a fresh theological interpretation for the ways people talk about God in times of crisis A Theology of God Talk The Language of the Heart probes the meaning behind phrases like It must have been God's will and The Lord took Uncle Harry Bringing together psychology theology and narrative theory this insightful and sensitive book offers new ways of looking at this common reaction to crisis Book jacket      History through Trauma Tiffany Houck-Loomis, 2018-04-11 Our sacred texts have the potential to become texts of torture or texts of liberation History through Trauma explores the symbolic function of religious political and national symbols that aid in the construction of historical narratives and the psychological effects of trauma on their creation and dissolution The Deuteronomic Covenant paramount in the construction of a biblical history of Israel is analyzed with regard to Israel's history of exile What is proffered is the book of Job as a symbolic history of Israel that stands as a counter history beside the dominant history constructed in the canon's historical books a counter history whose function works to re-enliven the symbol of covenant

History through Trauma brings consciousness to the effects of exile on the dominant historical narratives in the Hebrew canon and to the eradicated affective experiences of trauma that surface in counter texts such as the book of Job This work offers a valuable new understanding of the impact of trauma on history making in general an understanding that brings light to biblical studies practical theology pastoral psychology and psychoanalysis

**Cinderella and Her Sisters - The Envied and the Envy** Ann Ulanov, Barry Ulanov, Seated in her nest of ashes Cinderella embodies human misery The essence of inner and outer nobility she is the envy of her cruel stepmother and her ugly sisters Using this familiar story Ann and Barry Ulanov explore the psychological and theological aspects of envy and goodness In their interpretation of the tale they move back and forth between internal and external issues from how feminine and masculine parts of persons fit or do not fit together to how individuals conduct their lives with those of the same and opposite sexes how they conflict compete or join harmoniously The Cinderella tale so simple and so profound offers a direct road into and through the thickets of envying and being envied Envy between sisters between mothers and daughters between the sexes between nations between different parts of our own psyche even of God these are the multiple places of wounding we touch in this book The central role of envy in determining the very nature of our society its politics for example is we think crucial After considering this rarely discussed human emotion the authors focus on the nature of goodness as it surfaces in the envy experience They reflect on its abundance ability to unite disparate parts its abiding presence and its joy then conclude with a glossary of terms and a brief review of the psychological literature on envy

*Jungian Reflections on September 11* Luigi Zoja, Donald Lee Williams, 2003 Seldom has an event in the world had such pervasive and all encompassing effect as the brutal terrorist attacks on New York and Washington in September 2001 Has our world become a different place as a result If so in what ways What might a psychotherapist of depth psychologist perceive in the eruption of shocking contents

**Embodied Imaginations** Chidambaram Ramesh, 2023-06-05 The science behind the writers experience of characters developing their own will and taking objective forms Many writers have the experience that their characters have evolved their own personalities They start to tell their own stories and sometimes they could even rebel against the author s ideas for them and change the course of the whole plot That is not all though Sometimes literary characters assume objective appearances which are visible not just to the creators but also to others and manifesting in the real world These experiences raise several interesting philosophical and scientific questions Have the writers unwittingly created quasi conscious entities by the power of their minds Can thoughts manifest as something tangible that can be seen heard or even touched How genuine are the contents of the mind Embodied Imaginations explores these questions highlighting the results of an investigation on this fascinating topic stemming from personal anecdotes of many writers Providing scientific evidence for the existences of these mental constructs the goal is to collect robust and reliable building blocks that may help to deconstruct perceptions and provide answers to this phenomenon The book attempts to give modern science a place where spiritual philosophical and

mystical threads can be interwoven Efforts have been made to corroborate theoretical claims with experimental evidence contributing to research in cognitive psychology to determine the role of imagination in creating external reality This book will introduce you to the mysterious and profound part of creative writing that you never knew existed before
