

The background of the entire image is a textured, off-white surface. A large, vibrant yellow flower with multiple petals is positioned in the upper half. Below the flower, several green stems with finely divided, feathery leaves extend upwards, creating a sense of growth and movement. The overall aesthetic is natural and organic.

Kafka's Castle and the Critical Imagination Stephen D.

Dowden,1995 Kafka's final unfinished novel *The Castle* remains one of the most celebrated yet most stubbornly uninterpretable masterpieces of modernist fiction. Consequently it has been a lightning rod for theories and methods of literary criticism. In this chronological study of its fate at the hands of academic and non academic critics S D Dowden lays emphasis on the acts of critical imagination that have shaped our image and understanding of Kafka and his novel. He explores the historical and cultural contingencies of criticism from the Weimar Era of Max Brod and Walter Benjamin to Lionel Trilling's Cold War to the postmodern moment of multiculturalism and its turn to cultural studies. Dowden shows how and why *The Castle* became a contested site in the imaginative life of each succeeding generation of criticism. In addition he accounts for those moments at which Kafka's novel escapes or at least attempts to escape the gravitational pull of historically anchored understanding. Fortright in its prose Dowden's is a book essential for anyone casual reader or professional critic who hopes to grasp the peculiar difficulties and challenges of Kafka's prose in general and of *The Castle* in particular.

Kafka's Stereoscopes Isak Winkel Holm,2019-09-19 In 1911 Franz Kafka encountered the Kaiser Panorama a stereoscopic peep show offering an illusion of three dimensional depth. After the experience he began to emulate the apparatus in his literary sketches developing a style we might call stereoscopic juxtaposing like the optical stereoscope two images of the same object seen from slightly different perspectives. Isak Winkel Holm argues that Kafka's stereoscopic style is crucial to an understanding of the relation between literature and politics in Kafka's work. At the level of content the stereoscopic style offers a representation of the basic order of a specific community. At the level of form the stereoscopic style is structured as the juxtaposition of two dissimilar images of the same community. At the level of function finally the style provokes a reconsideration and perhaps even a reconfiguration of the social order itself. With insights from literary studies philosophical aesthetics and political theory Kafka's *Stereoscopes* offers a detailed but highly readable argument for the relevance of Kafka's literary works in today's political reality.

The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George

Watson,I. R. Willison,1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of *The Cambridge Bibliography of English Literature*. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.
