symbolism to the importance of divination and magic in ancient times and he demonstrates how important symbolism became when they thought about religion and philosophy They see the whole of great poetic language as deeply figurative he writes with the potential always even in the most mundane details to be freighted with hidden messages Birth of the Symbol offers a new understanding of the role of poetry in the life of ideas in ancient Greece Moreover it demonstrates a connection between the way we understand poetry and the way it was understood by important thinkers in ancient times This book offers a remarkably comprehensive study of ancient symbolic interpretation from the Pre Socratics to the later Neoplatonists and beyond Classical World A challenging yet rewarding journey through a millennium of texts thoughts and interpretations Walter Burkert author of Creation of the Sacred and Greek Religion [A Reference Guide for English Studies](#) Michael J.
