The Loss Of The Cullion:

The Loss of the Cullion Jeffery Ashford, 1985-08-01 Cul de Sac Paul Cheney, 2017-02-27 Introduction The colonial Cul de Sac Province and colony Production and investment Humanity and interest War and profit Husband and wife Revolution and cultivation Evacuation and indemnity Epilogue *The Anatomy of Blackness* Andrew S. Curran, 2011-09-19 This volume examines the Enlightenment era textualization of the Black African in European thought Andrew S Curran rewrites the history of blackness by replicating the practices of eighteenth century readers Surveying French and European travelogues natural histories works of anatomy pro and anti slavery tracts philosophical treatises and literary texts Curran shows how naturalists and philosophes drew from travel literature to discuss the perceived problem of human blackness within the nascent human sciences He also describes how a number of now forgotten anatomists revolutionized the era s understanding of black Africans and charts the shift of the slavery debate from the moral mercantile and theological realms toward that of the black body itself In tracing this evolution he shows how blackness changed from a mere descriptor in earlier periods into a thing to be measured dissected handled and often brutalized A definitive statement on the complex painful and richly revealing topic of how the major figures of the French Enlightenment reacted to the enslavement of black Africans often to their discredit The fields of race studies and of Enlightenment studies are more than ready to embrace the type of analysis in which Curran engages and all the more so in that his book is beautifully written and illustrated Symposium This is an important contribution to an important topic But it is also a model of how intellectual history should be done New Books in History The breadth of Andrew Curran s knowledge about the Enlightenment is astonishing The book makes the convincing point not only that Africa is a major focus in the Enlightenment s imagination but also that natural history and anthropology are central to understanding not only its scientific agenda but also its humanitarian politics Centaurus Curran s Francotropism and medical background enable him to develop insights that should prove important to the ongoing transnationalization and discipline blurring of literary and cultural studies Interdisciplinary Studies in Literature and Environment Curran s ability to dissect and explain complicated arguments of the period s major thinkers is impressive Choice *The Armchair Detective* ,1986 *The Works of Shakespeare: The merchant of Venice. As you like it. The taming of the shrew. All's well that ends well* William Shakespeare, 1921 **Shakespeare's Comedy of The Taming of the Shrew** William Shakespeare, Israel Gollancz, 1894 **Melancholy Anatomised** Robert Burton, 1881 The Anatomy of Melancholy Robert Burton, 1924 The anatomy of melancholy, by Democritus iunior Robert Burton, 1827 **The Anatomy of Melancholy ...** Robert Burton (Author of The Anatomy of Melancholy.), 1821
