Slow Death 09:

Life Without Parole Ross Kleinstuber, Jeremiah Coldsmith, Margaret Leigey, Sandra Joy, 2022-04-19 This book is an in depth critical examination of all pertinent aspects of life without parole LWOP Empirically assessing key arguments that advance LWOP including as an alternative to the death penalty it reveals that not only is the punishment cruel while not providing any societal benefits it is actually detrimental to society Over the last 30 years LWOP has exploded in the United States While the use of capital punishment over that same time period has declined it must be recognized that LWOP is in fact a hidden death sentence It is however implemented in a way that allows society to largely ignore this truth While capital punishment has rightfully been subject to intense debate and scholarship LWOP has mostly escaped such scrutiny In fact LWOP has been touted by both death penalty abolitionists and by tough on crime conservatives which has allowed it to flourish under the radar Specifically abolitionists have advanced LWOP as a palatable alternative to capital punishment which they perceive as inhumane error prone costly and racially biased Conservatives meanwhile advocate for LWOP as an effective means of fighting crime a just form of retribution and necessary tool for managing incorrigible offenders This book seeks to tap into and help inform this growing debate by subjecting these key arguments to empirical scrutiny The results of those analyses fail to produce any evidence in support of any of those various justifications and therefore suggest that LWOP should be abolished and replaced with life sentences that come with parole eligibility after a maximum of 25 years The book will be of great interest to students and scholars of criminology and criminal justice and will also have crossover appeal into the fields of law political science and sociology It will also appeal to criminal justice professionals lawmakers activists and attorneys as well as death penalty abolitionists opponents of mass incarceration advocates for sentencing reform and supporters of prisoners rights

Ardeth #09 Felipe Hernández, 2022-12-06 Architecture is an inward looking discipline Its history conveys the norms of the discipline to an audience composed mostly of architects who are familiar with the work of their predecessors from whom they learnt or for whom they worked As such architecture singularises the multiple processes through which space is produced excluding difference in the pursuit of coherent narratives to sustain its authority and does so mainly through the figure of the architect For a long time now critics have shown how that figure is principally male However little has been said about the fact that the figure of the architect is also white a racial classification that refers not only to epidermal characteristics but to their national origin education and in most cases their class affiliation

You Call This Art? Patrick Rosenkranz, 2008-08-27 If he were alive today he d be a superstar He was that good But Greg Irons died just as his star was rising He was only 37 years old when a speeding bus on a busy Bangkok street killed him in 1984 Irons was a psychedelic poster artist an underground cartoonist a book illustrator and an emerging tattoo virtuoso who brought a new sensibility to an age old art form This retrospective book spans his whole artistic career from his earliest dance posters to his ground breaking science fiction and horror comix to his innovative and colorful tattoo art Greg Irons was one of the elite

Chronicles of a Global City Vinay Gidwani, Michael Goldman, Carol Upadhyaya, 2024-11-19 Tracking Bengaluru's dramatic urban transformation through the entanglements of finance land frenzy real estate volatility and livelihood upheavals Over the past two decades Bengaluru's exploding real estate sector and massive infrastructure investments have led to land speculation targeting working class neighborhoods and agricultural land for development Chronicles of a Global City turns Bengaluru inside out to examine its world city transformation that stimulated rapid urbanization and unbounded growth Moving the spotlight away from the urban elites and new middle class this book explores how people caught up in the whirlwinds of change in Bengaluru from construction laborers street vendors domestic workers and platform delivery workers to small time property brokers petty landlords and local politicians experience struggle aspire invent strive and speculate to make a livable city for themselves Grounded in long term ethnographic research and activist experiences Chronicles of a Global City vividly illuminates the multifaceted entanglements of finance capital real estate markets livelihood struggles and fraying ecologies in urban and peri urban Bengaluru Its anchoring concept speculative urbanism provides a powerful innovative lens for understanding the risk laden practices of leveraging land labor and resources for the promise of future profit Contributors Hemangini Gupta Pierre Hauser Priyanka Krishna Eesha Kunduri Kaveri Medappa Usha Rao Shaheen Shasa Swathi Shivanand Vinay K Sreenivasa

The Great Music City Andrea Baker, 2019-03-01 In the 1960s as gentrification took hold of New York City Jane Jacobs predicted that the city would become the true player in the global system Indeed in the 21st century more meaningful comparisons can be made between cities than between nations and states Based on case studies of Melbourne Austin and Berlin this book is the first in depth study to combine academic and industry analysis of the music cities phenomenon Using four distinctly defined algorithms as benchmarks it interrogates Richard Florida's creative cities thesis and applies a much needed synergy of urban sociology and musicology to the concept mediated by a journalism lens Building on seminal work by Robert Park Lewis Mumford and Jane Jacobs it argues that journalists are the cultural branders and street theorists whose ethnographic approach offers critical insights into the urban sociability of music activity

Places of Invention Arthur P. Molella, Anna Karvellas, 2015-06-30 The companion book to an upcoming museum exhibition of the same name Places of Invention seeks to answer timely questions about the nature of invention and innovation What is it about some places that

sparks invention and innovation Is it simply being at the right place at the right time or is it more than that How does place whether physical social or cultural support constrain and shape innovation Why does invention flourish in one spot but struggle in another even very similar location In short Why there Why then Places of Invention frames current and historic conversation on the relationship between place and creativity citing extensive scholarship in the area and two decades of investigation and study from the National Museum of American History's Lemelson Center for the Study of Invention and Innovation The book is built around six place case studies Hartford CT late 1800s Hollywood CA 1930s Medical Alley MN 1950s Bronx NY 1970s Silicon Valley CA 1970s 1980s and Fort Collins CO 2010s Interspersed with these case studies are dispatches from three learning labs detailing Smithsonian Affiliate museums work using Places of Invention as a model for documenting local invention and innovation Written by exhibition curators each part of the book focuses on the central thesis that invention is everywhere and fueled by unique combinations of creative people ready resources and inspiring surroundings Like the locations it explores Places of Invention shows how the history of invention can be a transformative lens for understanding local history and cultivating creativity on scales of place ranging from the personal to the national and beyond

The Golden Country Tim Watts, 2019-09-17 A topical and provocative exploration of Australian identity by Federal MP and author Tim Watts

The Rise of the Robots Martin Ford, 2015-09-03 Intelligent algorithms are already well on their way to making white collar jobs obsolete travel agents data analysts and paralegals are currently in the firing line In the near future doctors taxi drivers and ironically even computer programmers are poised to be replaced by robots Without a radical reassessment of our economic and political structures we risk the very implosion of the capitalist economy itself In *The Rise of the Robots* technology expert Martin Ford systematically outlines the achievements of artificial intelligence and uses a wealth of economic data to illustrate the terrifying societal implications From health and education to finance and technology his warning is stark all jobs that are on some level routine are likely to eventually be automated resulting in the death of traditional careers and a hollowed out middle class The robots are coming and we have to decide now whether the future will bring prosperity or catastrophe

Faxed Jonathan Coopersmith, 2015-02-28 Faxed is the first history of the facsimile machine the most famous recent example of a tool made obsolete by relentless technological innovation Jonathan Coopersmith recounts the multigenerational multinational history of that device from its origins to its workplace glory days in the process revealing how it helped create the accelerated communications information flow and vibrant visual culture that characterize our contemporary world Most people assume that the fax machine originated in the computer and electronics revolution of the late twentieth century but it was actually invented in 1843 Almost 150 years passed between the fax's invention in England and its widespread adoption in tech savvy Japan where it still enjoys a surprising popularity Over and over again faxing's promise to deliver messages instantaneously paled before easier less expensive modes of communication first telegraphy then radio and television and finally digitalization in the form of email the World Wide Web and cell phones

By 2010 faxing had largely disappeared having fallen victim to the same technological and economic processes that had created it Based on archival research and interviews spanning two centuries and three continents Coopersmith's book recovers the lost history of a once ubiquitous technology Written in accessible language that should appeal to engineers and policymakers as well as historians *Faxed* explores themes of technology push and market pull user based innovation and blackboxing the packaging of complex skills and technologies into packages designed for novices while revealing the inventions inspired by the fax how the demand for fax machines eventually caught up with their availability and why subsequent shifts in user preferences rendered them mostly pass

immersive first hand account of retail worker surveillance and resistance in the digital age Technology has sped up the world of retail clothing rushing affordable trendy garments to consumers and enriching multinational retail giants like Zara and H M But beneath the success of fast fashion there is a grimmer story to be told that of the people who do the actual producing and selling Working undercover in two of the world s largest fast fashion stores in New York City Madison Van Oort observed firsthand how data and surveillance shape the lives of low status workers in an industry in flux and how these workers are fighting back Worn Out provides an on the ground look at how technology helps create this just in time workforce how feminized and racialized workers experience and respond to new forms of digital control and how collective struggles for racial gender and economic justice in and around retail spaces inform these workers resistance Worn Out draws on interviews with dozens of front line workers and labor activists and on evidence gathered at corporate conferences to expose the exploitative reality of retail labor in the digital age Van Oort shows how digital tools lubricate the shift toward just in time retail by collecting real time data on not only customer behavior but also worker performance and how these tools including automated scheduling platforms biometric timeclocks and cashier metrics increase these workers already heightened insecurity One of the first ethnographies of this thriving industry Van Oort s book pulls open the curtain between production and consumption and reveals the real cost of fast fashion

Cloister Talks Jon M. Sweeney,2009-05-01 Come along as author Jon M Sweeney sits in the warm October sun talking with Father Luke or enjoys a December afternoon in the monastery with Father Ambrose In *Cloister Talks* Sweeney offers a rare glimpse into his decades long friendships with monks and shares the wisdom and insight for everyday living he has gained along the way The contemplative monasticism Sweeney practiced with these monks has been the greatest source of guidance in his journey of faith and here he shares it with poignant honesty Sweeney s conversations with monks engage various universal areas of life including life death love work play and spirituality Readers will emerge with a deeper understanding of this ancient way of Christianity a much needed antidote to the hurry of contemporary life EXCERPT Ambrose has such an interesting mind When he talks it s as if he s painting the circles on a target beginning at the outer ones If I had to give you one piece of advice it would be this Don t look for sudden enlightenment People call them ah ha moments don t worry about those I know that you may feel your time is

wasted here if you haven't had enough ah has but I assure you it won't be So what should I be doing I asked him feeling confused When you finally quiet down enough you'll begin to hear the divine voice Don't walk around looking for moments of enlightened insight Ambrose continued For one thing we're not that smart He laughed Instead you should walk around praying Sit in the church before dawn praying Or just shut your mouth for a few days Listen to the talks given by the retreat master if you like Just sit Try your best to stop thinking It sounded too easy to me I told him that What I'm suggesting is much harder than you might think You'll see

Storm clouds at the back of my mind Abhroneel Mukherjee, 2020-05-15 This book may make you cry make you fall in love or maybe even contemplate possibilities wilder than your wildest imaginations Storm Clouds at the Back of My Mind is not for everyone it is not a story of the ages This book is for you and for me All my feelings thoughts and longings fragmented and whole await you within these pages an extension of my consciousness my very being I have given material form to all my failings insecurities and fears within these pages in hopes of reaching out to you You are not alone out there I know it's hard right now I know that there are moments when you feel like you are not enough when the world feels too big a place to inhabit and you feel like a small speck of insignificance They lied to you There isn't enough of you I hope by the time you have finished reading this book you realize that you are made of the same stardust that constituted our entire universe in primordial times You are made of stars and you're spectacular

Rescuing the Children Vivette Samuel, 2013-02-28 Rescuing the Children is the memoir of Vivette Samuel who at age twenty-two began working for the *uvre de secours aux enfants* OSE or Society for Assistance to Children The OSE and similar organizations saved 86 percent of Jewish children in France from deportation to Nazi concentration and extermination camps

Events in the City Andrew Smith, 2015-11-19 Cities are staging more events than ever Within this macro trend there is another less acknowledged trend more events are being staged in public spaces Some events have always been staged in parks streets and squares but in recent years events have been taken out of traditional venues and staged in prominent urban spaces This is favoured by organisers seeking more memorable and more spectacular events but also by authorities who want to animate urban space and make it more visible This book explains these trends and outlines the implications for public spaces Events play a positive role in our cities but turning public spaces into venues is often controversial Events can denigrate as well as animate city space they are part of the commercialisation privatisation and securitisation of public space noted by commentators in recent years The book focuses on examples from London in particular but it also covers a range of other cities from the developed world Events at different scales are addressed and there is dedicated coverage of sports events and cultural events This topical and timely volume provides valuable material for higher level students researchers and academics from events studies urban studies and development studies

Chambers's English Readers. (The First (second) Primer) John Miller Dow Meiklejohn, 1879

Why the West Can't Win Fadi Lama, 2023-05-01 Geopolitical upheaval has gripped the world since collapse of the Soviet Union During the 1990s the West focused on eliminating the

resurgence of Russia as a great power This led to the assimilation of Warsaw Pact countries into NATO two Chechen wars and political systems in the Central Asian republics aligned with the West Russia's economic destruction was managed by the Harvard boys shock therapy which left Russian resources in the control of a few oligarchs aligned with the West By the end of the 1990s Russia was a weak bankrupt country of marginalized influence in the world Then the West's focus turned to China as a potential challenger to western global hegemony It was thought to suffice to control global energy resources and sea lanes to China to prevent China from challenging western global hegemony Hence the first two decades of the millennium were focused on controlling West Asia and North Africa's energy resources For most the collapse of the Soviet Union in 1991 signaled the victory of the self denominated Free World Why the West Can't Win however addresses how events in the three following decades signal the end of a millennium of West European expansionism a plundering and oppression initially labeled Crusades when the popes embodied political power morphing into colonialism then to the Free World when colonialism went out of fashion post World War II and at last to the International Community after the collapse of the Soviet Union This book's geopolitical analysis includes a historical overview an understanding of the financial systems established at the Bretton Woods conference that continue dominating the global economy how they are used as a powerful geopolitical instrument an economic analysis based on real goods production global energy dynamics alliances and strategies of key global players It addresses the emerging division of the world into two geopolitical groups Western Europe North America Australia New Zealand and Africa Asia and Latin America The current global geopolitical clash is in essence a struggle between the colonial powers wishing to preserve the Bretton Woods system that allows siphoning wealth of nations and sovereign nations striving for independence and an end to a millennium of oppression This work compares the geopolitical forces since the turn of the millennium with a view to providing insight into their relative strengths and the likely outcome of this struggle
