Slowdown Danny Dorling, 2020-03-31 The end of our high growth world was underway well before COVID 19 arrived In this powerful and timely argument Danny Dorling demonstrates the benefits of a larger ongoing societal slowdown Drawing from an incredibly rich trove of global data this groundbreaking book reveals that human progress has been slowing down since the early 1970s Danny Dorling uses compelling visualizations to illustrate how fertility rates growth in GDP per person and even the frequency of new social movements have all steadily declined over the last few generations Perhaps most surprising of all is the fact that even as new technologies frequently reshape our everyday lives and are widely believed to be propelling our civilization into new and uncharted waters the rate of technological progress is also rapidly dropping Rather than lament this turn of events Dorling embraces it as a moment of promise and a move toward stability and he notes that many of the older great strides in progress that have defined recent history also brought with them widespread warfare divided societies and massive inequality

Wisler, 2019-09-17 This book delves into the power of the conversation and the words we use There is a tremendous need for people to be more thoughtful and careful with their words Electronic transactions tend to be shorter and quicker and in many cases delivered without much thought as to the impact of the message and the words As soon as the words are spoken or written and received it is too late to take them back In addition most conflicts and challenging situations could be avoided minimized and or deescalated with an effective conversation Effective and meaningful conversations do not come naturally but it is a skill that can be learned through education and practice This book will walk you through effective principles and practices that can be used to enhance the probability of a good outcome from a challenging situation and conversation The words we choose do make a difference and this fact needs to be at the forefront of our thought process as we enter a face to face conversation compose an email and send a text or place a social media post This book will provide the tools necessary to
