Slow Motion Changing Masculinities Changing Men:

Slow Motion Lynne Segal, 1994 **Slow Motion** L. Segal, 2007 *Slow Motion* tackles the prevailing feminist pessimism about men and male power Challenging the notion of masculinity as a monolithic entity Lynne Segal points out the contradictory and competing nature of its different forms **The Politics of Manhood** Michael Kimmel, 2009 A much

needed often startling debate on the personal and political dimensions of masculinity Straight Sex Lynne

Segal, 1994-01-01 An unflinching examination of feminist thinking on sexuality over the past twenty five years and an exploration of sex in our culture tackles major questions head on and considers whether women must choose between sexuality and selfhood UP Men's Bodies Judith Still, 2019-08-07 No detailed description available for Men s Bodies

Engaging East Timorese Men in the Process of Establishing Gender Equality Melanie Lotfali, 2013-09-18 ABSTRACT The equality of women and men is a prerequisite for peace Social development interventions over recent decades have sought to achieve equality primarily by educating and liberating women from the shackles of customs and paradigms that serve to maintain gender inequality It is increasingly recognized that due attention must be given to men s essential role in the process to men s education and liberation In East Timor the latter process has begun albeit on a small scale This study looks at ways to further advance this process Three and a half years in East Timor provided the opportunity to engage in applied research using the methodology of ethnography I gathered data using three main techniques semi structured interviews with more gender equitable men and with women and men occupied with the engagement of East Timorese men in gender equality observation and direct participation within a wide range of settings from informal encounters on local beaches to high level meetings with the president and government ministers and analysis of pertinent primary and secondary documents I identified that a number of interventions are being applied to the issue of engaging East Timorese men in gender equality including use of workshops and trainings the performing arts campaigns and the mass media role modeling and the techniques of popular education with varying levels of success I found that the Association of Men Against Violence and its members are key players in the advancement of this process and that they work closely with feminist organizations within East Timor While I drew on much secular theory and practice in the course of this study my personal beliefs and practices are guided by the teachings of the Baha i Faith The Baha i teachings include much that is relevant to this study and thus I have drawn on and presented Baha i perspectives and approaches to such things as equality and men s role in its establishment social and economic development and the culture of contest and have 3 drawn on Baha i principles in the discussion of results and subsequently in drawing my conclusions By exploring the implications of interventions implemented in other parts of the world and of theory pertaining to social development masculinities and a culture of contest I identified that interventions in East Timor to engage men in gender equality would be strengthened by giving due consideration to the following developing participants ability to communicate providing opportunity for and developing the capacity of

participants to critically reflect on their environment addressing participants as whole human beings and members of one human race and actively engaging participants in the development and ownership of knowledge I concluded that three areas requiring immediate attention include the development of evaluation tools and processes and the systematic documentation and sharing of learning as well as research into masculinities in an East Timorese context **Teaching Asian America**

Lane Ryo Hirabayashi,1998 This innovative volume offers the first sustained examination of the myriad ways Asian American Studies is taught at the university level Through this lens this volume illuminates key debates in U S society about pedagogy multiculturalism diversity racial and ethnic identities and communities formed on these bases Asian American Studies shares critical concerns with other innovative fields that query representation positionality voice and authority in the classroom as well as in the larger society Acknowledging these issues twenty one distinguished contributors illustrate how disciplinary and interdisciplinary approaches to Asian American Studies can be utilized to make teaching and learning about diversity more effective Teaching Asian America thus offers new and exciting insights about the state of ethnic studies and about the challenges of pluralism that face us as we move into the twenty first century **Jewish Masculinity in the Holocaust**

Maddy Carey,2017-10-05 This book explores for the first time the impact of the Holocaust on the gender identities of Jewish men Drawing on historical and sociological arguments it specifically looks at the experiences of men in France Holland Belgium and Poland Jewish Masculinity in the Holocaust starts by examining the gendered environment and ideas of Jewish masculinity during the interwar period and in the run up to the Holocaust The volume then goes on to explore the effect of Nazi persecution on various elements of male gender identity analysing a wide range of sources including diaries and journals written at the time underground ghetto newspapers and numerous memoirs written in the intervening years by survivors Taken together these sources show that Jewish masculinities were severely damaged in the initial phases of persecution particularly because men were unable to perform the gendered roles they expected of themselves More controversially however Maddy Carey also shows that the escalation of the persecution and later enclosure whether through ghettoisation or hiding offered men the opportunity to reassert their masculine identities Finally the book discusses the impact of the Holocaust on the practice of fatherhood and considers its effect on the transmission of masculinity This important study breaks new ground in its coverage of gender and masculinities and is an important text for anyone studying the history of the Holocaust *The SAGE Handbook of Gender and Education* Christine Skelton,Becky Francis,Lisa
