Godwyn, Donna Stoddard, 2017-09-08 How does gender and minority status shape entrepreneurial decision making This
question seems long overdue since minority women in the US start new businesses at four times the rate of non minority men
and women This book is about minority women entrepreneurs in the United States Though these women are thriving as
business owners their stories are very seldom told and few think of minority women as successful entrepreneurs Therefore
the first purpose of the book is to give voice and visibility to US minority women business owners The second purpose is to
explain what makes these women different from the standard white male business owners most people are familiar with
Through in depth interviews and first hand accounts from minority women entrepreneurs the authors found that in
innovative and exciting ways minority women use their outsider status to develop socially conscious business practices that
support the communities with which they identify They reject the idea that business values are separate from personal values
and instead balance profits with social good and environmental sustainability This pattern is repeated in statistical evidence
from around the globe that women contribute a much higher percentage of their earnings to social good than do men but
until now there was no clear explanation of why Using sociological and psychological theories the authors explain why
women especially minority women have a tendency to create socially responsible businesses The innovations provided by the
women in this study suggest fresh solutions to economic inequality and humanistic alternatives to exploitative business
policies This is a radically new socially integrated model that can be used by businesses everywhere This book is intended for
undergraduate and graduate students of business sociology race and gender studies as well as practitioners of
entrepreneurship aspiring entrepreneurs and all those looking for new examples of holistic sustainable and socially
responsible business practices **The Youth's Companion** Nathaniel Willis, Daniel Sharp Ford, 1881 Includes music
