cultural theory **Television Brandcasting** Jennifer Gillan, 2014-11-20 Television Brandcasting examines U S television's utility as a medium for branded storytelling. It investigates the current and historical role that television content promotion and hybrids of the two have played in disseminating brand messaging and influencing consumer decision making. Juxtaposing the current period of transition with that of the 1950s 1960s, Jennifer Gillan outlines how in each era new technologies unsettled entrenched business models; an emergent viewing platform threatened to undermine an established one; and content providers worried over the behavior of once dependable audiences. The anxieties led to storytelling, promotion, and advertising experiments including the Disneyland series, embedded rock music videos in *Ozzie & Harriet*, credit sequence brand integration, *Modern Family*'s parent company promotion episodes, second screen initiatives, and social TV experiments. Offering contemporary and classic examples from the American Broadcasting Company, Disney Channel, ABC Family, and Showtime alongside series such as *Bewitched*, *Leave It to Beaver*, *Laverne Shirley*, and *Pretty Little Liars*, individual chapters focus on brandcasting at the level of the television series, network schedule, Blu-ray/DVD/Digital combo pack, the promotional short, the cause marketing campaign, and across social media. In this follow-up to her successful previous book *Television and New Media Must Click*, TV Gillan provides vital insights into television's role in the expansion of a brand-centric U S culture.

Projecting Tomorrow James Chapman, Nicholas J. Cull, 2013-01-30 Cinema and science fiction were made for each other. Science fiction has been at the cutting edge of film technology, and the genre has produced some of the most ambitious, imaginative, and visually spectacular films ever made. Yet science fiction cinema is about more than just state-of-the-art special effects. It has also provided a vehicle for filmmakers and writers to comment on their own societies and cultures. In this new study of the genre, James Chapman and Nicholas Cull examine a series of landmark science fiction films from the 1930s to the present. They include genre classics including *Things to Come*, *Forbidden Planet*, *Planet of the Apes*, and *2001: A Space Odyssey* alongside modern blockbusters *Star Wars* and *Avatar*. They consider both screen originals and adaptations of the work of major science fiction authors such as H.G. Wells and Arthur C. Clarke. They range widely across the genre from pulp adventure and space opera to political allegory and speculative documentary; there is even a science fiction musical. Chapman and Cull explore the contexts and document the production histories of each film to show how they made their way to the screen and why they turned out the way they did. Informed throughout by extensive original research in US and British archives, *Projecting Tomorrow* will be essential reading for all students and fans of science fiction cinema. **A Companion**

The Joy of Sets Chris Horrocks, 2017-12-22 It is a modern activity one of the primary ways we consume information and entertainment something we ll do over dinner at a bar or even standing on the street peering into a store window watch TV Many of us spend countless hours in front of the tube and even those of us who have proudly eliminated it from our lives can probably still rattle off the names of today s most popular shows But for as crucial as television viewing is in modern culture the television set itself as a ubiquitous object in our environment rarely captures our attention turn one off and it seems to all but disappear In this book Chris Horrocks tells the story of the television set exploring its contradictory presence in our lives as both a material object and a conveyor of illusory images Horrocks begins in the nineteenth century and television s prehistory as a fantastic futuristic concept He follows the television s journey from its strange roots in spiritualism imperialism and Victorian experiments in electro magnetism to the contested accounts of its actual invention looking at the work of engineering pioneers such as Philo Farnsworth and John Logie Baird Unboxing sets all across the world he details how it arrived as an essential consumer product and began to play an extraordinary role as a bridge between public and private life Horrocks describes how the console and cabinet themselves expressed status and good taste and how their designs drew on cultural phenomena such as the space race and the avant garde He discusses how we have both loved it for what it can provide and reviled it as a sinister object literally controlling

our thoughts and he shows how it has figured in other cultural realms such as the work of artists like Wolf Vostell and Nam June Paik Finally Horrock laments the death of the cathode ray tube and the emergence of the flat screen which has reduced the presence of the television as a significant material object Altogether The Joy of Sets brings this most elusive object into crystal clear critical and historical focus *First Lady of Laughs* Grace Kessler Overbeke,2024-09-17 Before Hacks and The Marvelous Mrs Maisel there was the comedienne who started it all First Lady of Laughs tells the story of Jean Carroll the first Jewish woman to become a star in the field we now call stand up comedy Though rarely mentioned among the pantheon of early stand up comics such as Henny Youngman and Lenny Bruce Jean Carroll rivaled or even outshone the male counterparts of her heyday playing more major theaters than any other comedian of her period In addition to releasing a hit comedy album *Girl in a Hot Steam Bath* and briefly starring in her own sitcom on ABC she also made twenty nine appearances on The Ed Sullivan Show Carroll made enduring changes to the genre of stand up comedy carving space for women and modeling a new form of Jewish femininity with her glamorous acculturated but still recognizably Jewish persona She innovated a newly conversational intimate style of stand up which is now recognized in comics like Joan Rivers Sarah Silverman and Tiffany Haddish When Carroll was ninety five she was honored at the Friars Club in New York City where celebrities like Joy Behar and Lily Tomlin praised her influence on their craft But her celebrated career began as an impoverished immigrant child scrounging for talent show prize money to support her family Drawing on archival footage press clippings and Jean Carroll s personal scrapbook *First Lady of Laughs* restores Jean Carroll s remarkable story to its rightful place in the lineage of comedy history and Jewish American performance **Precocious Charms** Gaylyn Studlar,2013-01-15 In *Precocious Charms* Gaylyn Studlar examines how Hollywood presented female stars as young girls or girls on the verge of becoming women Child stars are part of this study but so too are adult actresses who created motion picture masquerades of youthfulness Studlar details how Mary Pickford Shirley Temple Deanna Durbin Elizabeth Taylor Jennifer Jones and Audrey Hepburn performed girlhood in their films She charts the multifaceted processes that linked their juvenated star personas to a wide variety of cultural influences ranging from Victorian sentimental art to New Look fashion from nineteenth century children s literature to post World War II sexology and from grand opera to 1930s radio comedy By moving beyond the general category of woman *Precocious Charms* leads to a new understanding of the complex pleasures Hollywood created for its audience during the half century when film stars were a major influence on America s cultural imagination ESPN Travis Vogan,2015-10-15 Once a shoestring operation built on plywood sets and Australian rules football ESPN has evolved into a media colossus A genius for cross promotion and its near mystical rapport with its viewers empower the network to set agendas and create superstars to curate sports history even as it mainstreams the latest cultural trends Travis Vogan teams archival research and interviews with an all star cast to pen the definitive account of how ESPN turned X s and O s into billions of Vogan s institutional and cultural history focuses on the network since 1998 the year it
