Islamic Devotion demonstrates that salvation is a central concept of the religion of Islam even though its meaning causes and results according to Islam may differ from what is taught by Christianity and other world religions The first chapter of the book presents the Islamic doctrine of salvation as set forth in the Quran and prophetic tradition The meaning of salvation is explored and the means to it on both human and divine sides are considered with special emphasis upon Islamic devotions The remaining eight chapters deal with both obligatory and supererogatory devotions prescribed by Islam concentrating on the methods of their correct performance on which salvation is largely dependent The material used in this book has been derived entirely from the original Islamic sources written in Arabic Efforts are made to make the book useful to both Muslim and non Muslim readers of English interested in the Islamic theory of salvation and acts of devotion **Tofino: A Novel**

Science and Salvation Aileen Fyfe, 2011-04-15 Threatened by the proliferation of cheap mass produced publications the Religious Tract Society issued a series of publications on popular science during the 1840s The books were intended to counter the developing notion that science and faith were mutually exclusive and the Society's authors employed a full repertoire of evangelical techniques low prices simple language carefully structured narratives to convert their readers The application of such techniques to popular science resulted in one of the most widely available sources of information on the sciences in the Victorian era A fascinating study of the tenuous relationship between science and religion in evangelical publishing *Science and Salvation* examines questions of practice and faith from a fresh perspective Rather than highlighting works by expert men of science Aileen Fyfe instead considers a group of relatively undistinguished authors who used thinly veiled Christian rhetoric to educate first but to convert as well This important volume is destined to become essential reading for historians of science religion and publishing alike

For Salvation's Sake Jason Moralee, 2004-03-01 This book breaks new ground in the study of cultural unity in the Near East from pre Roman to early Islamic times first century BC eighth century AD Based on a thorough study of nearly 400 Greek and Latin inscriptions from Syria Lebanon Jordan and Israel this book shows how the formula for salvation's sake *hyper soterias pro salute* was fundamental to the political social and religious lives of hundreds of civic and military elites in the Near East Initially an expression of ancient indigenous religion this formula expressed loyalty to the central authority at Rome while profiling social status and piety With the arrival of Christianity and Islam the formula lost its political importance but persisted in its social and religious applications among Christian and Jewish communities in Late Antiquity Presenting a new body of evidence Jason Moralee provides a fresh look at how Romans used the inscriptions to secure the loyalty of their subjects for centuries This analysis of material culture through several periods redefines notions of political loyalty in the Middle East from antiquity through the Middle Ages raising new questions about life in the Roman provinces

The Last Palace Norman Eisen, 2019-09-03 A sweeping yet intimate narrative about the last hundred years of turbulent European history as seen through one of Mitteleuropa s greatest houses and the lives of its occupants When Norman Eisen moved into the US ambassador s residence in Prague returning to the land his mother had fled after the Holocaust he was startled to discover swastikas hidden beneath the furniture in his new home These symbols of Nazi Germany were remnants of the residence s forgotten history and evidence that we never live far from the past From that discovery unspooled the twisting captivating tale of four of the remarkable people who had called this palace home Their story is Europe s and The Last Palace chronicles the upheavals that transformed the continent over the past century There

was the optimistic Jewish financial baron Otto Petschek who built the palace after World War I as a statement of his faith in democracy only to have that faith shattered Rudolf Toussaint the cultured compromised German general who occupied the palace during World War II ultimately putting his life at risk to save the house and Prague itself from destruction Laurence Steinhardt the first postwar US ambassador whose quixotic struggle to keep the palace out of Communist hands was paired with his pitched efforts to rescue the country from Soviet domination and Shirley Temple Black an eyewitness to the crushing of the 1968 Prague Spring by Soviet tanks who determined to return to Prague and help end totalitarianism and did just that as US ambassador in 1989 Weaving in the life of Eisen s own mother to demonstrate how those without power and privilege moved through history The Last Palace tells the dramatic and surprisingly cyclical tale of the triumph of liberal democracy
