Cyberpl@y Brenda Danet, 2020-05-28 The Internet is changing the way we communicate As a cross between letter writing and conversation email has altered traditional letter writing conventions Websites and chat rooms have made visual aspects of written communication of greater importance arguably than ever before New communication codes continue to evolve with unprecedented speed This book explores playfulness and artfulness in digital writing and communication and answers penetrating questions about this new medium Under what conditions do old letter writing norms continue to be important even in email Digital greetings are changing the way we celebrate special occasions and public holidays but will they take the place of paper postcards and greeting cards The author also looks at how new art forms such as virtual theatre ASCII art and digital folk art on IRC are flourishing and how many people collect and display digital fonts on handsome Websites or even design their own Intended as a time capsule documenting developments online in the mid to late 1990s when the Internet became a mass medium this book treats the computer as an expressive instrument fostering new forms of creativity and popular culture

The Emoji Code Vyvyan Evans, 2017-08-01 Drawing from disciplines as diverse as linguistics cognitive science psychology and neuroscience The Emoji Code explores how emojis are expanding communication and not ending it For all the handwringing about the imminent death of written language emoji those happy faces and hearts is not taking us backward to the dark ages of illiteracy Every day 41.5 billion texts are sent by one quarter of the world using 6 million emoji Evans argues that these symbols enrich our ability to communicate and allow us to express our emotions and induce empathy ultimately making us all better communicators The Emoji Code charts the evolutionary origins of language the social and cultural factors that govern its use change and development as well as what it reveals about the human mind In most communication nonverbal cues are our emotional expression signal our personality and are our attitude toward our addressee They provide the essential means of nuance and are essential to getting our ideas across But in digital communication these cues are missing which can lead to miscommunication The explosion of emojis in recent years has arisen precisely because it fulfills exactly these functions which are essential for communication but are otherwise absent in texts and emails Evans persuasively argues that emoji add tone and an emotional voice and nuance making us more effective
