Nudging Public Policy Rosemarie Fike, Stefanie Haeffele, Arielle John, 2021-11-17 This book asks several critical questions relevant to those interested in public policy What is

a nudge What are the ethical implications of and justifications for nudges Are we able to have nudges without affecting one's freedom to choose In what institutional context are nudges likely to work well and in what context are they likely to fail The text explores several real world instances of government attempts at successful choice architecture across a wide range of policy topics internet privacy laws environmental policy education policy the sharing economy and creating a national culture This approach also highlights the spontaneous and evolutionary nature of social institutions like culture and trust Attempts from policymakers to generate these social institutions where they did not exist previously are unlikely to succeed unless they are aligned with the unique characteristics of the society in question This raises the question of whether the seemingly successful policy interventions were even necessary A few of the chapters in this book directly examine these issues through case studies of both Latin America and Singapore Each chapter in this volume explores the ways in which individuals in society respond to attempts by policymakers to nudge them towards a specific outcome Some chapters explore the theoretical arguments in favor of utilizing this behavioral policy approach Others explore the feasibility and potential limitations of this approach to public policy Several of the chapters apply market process theory to understand a particular case study where nudge policies have been put into practice The chapters authored by an interdisciplinary group of policy scholars include discussions of internet privacy laws the sharing economy education policy environmental policy as well as social issues such as trust and culture

Multilingual Singapore Ritu Jain, 2021-05-25 This volume brings together researchers whose analysis and insights provide a comprehensive and up to

date account of Singapore's rich linguistic diversity. The chapters in this volume trace the historical development, contemporary status, and functions of these languages, as well as potential scenarios for the future. Exploring the tension between language policies and linguistic realities in Singapore, the contributions in this volume capture the shifting educational, political, and societal priorities of the community through its past and contemporary present.

Encyclopedia of Diasporas Melvin Ember, Carol R. Ember, Ian Skoggard, 2004-11-30 Immigration is a topic that is as important among anthropologists as it is to the general public. Almost every culture has experienced adaptation and assimilation when immigrating to a new country, and culture usually leaving for what is perceived as a better life. Not only does this diaspora change the country of adoption, but also the country of origin. Many large nations in the world have absorbed and continue to absorb large numbers of immigrants. The foreseeable future will see a continuation of large-scale immigration as many countries experience civil war and secessionist pressures. Currently, there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world's cultures, and provides an overview of important topics in the world's diasporas. The encyclopedia consists of two volumes covering three main sections: *Diaspora Overviews*, *Topics*, and *Diaspora Communities*. *Overviews* covers over 20 ethnic groups that have experienced voluntary or forced immigration. These essays discuss the history behind the social, economic, and political reasons for leaving the original countries and the cultures in the new places. *Topics* discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures, including the arts they bring, the struggles they face, and some of the cities that are in the forefront of receiving immigrant cultures. *Diaspora Communities* include over 60 portraits of specific diaspora communities. Each portrait follows a standard outline to facilitate comparisons. The *Encyclopedia of Diasporas* can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures, topics, and communities. It will prove of great value to researchers and students, curriculum developers, teachers, and government officials. It brings together the disciplines of anthropology, social studies, political studies, international studies, and immigrant and immigration studies. **George Yeo On Bonsai, Banyan**

And The Tao Asad-ul Iqbal Latif, Huay Leng Lee, 2015-05-18 Since his undergraduate days in Cambridge, George Yeo has spoken and written much in and out of government. Many remember the things which he said or wrote years ago. This book is a compilation of some of his best speeches and writings, which were selected by Asad Latif and Lee Huay Leng in consultation with him. The book has a rather unusual title because there are many aspects to George Yeo which make him difficult to classify. As a student leader, he was radical but conciliatory. In the Singapore Armed Forces, he was atypical, moving from the Army to the Air Force before becoming Director of Joint Operations and Planning. In politics, he is fondly remembered by artists, journalists, doctors, businessmen, and foreign diplomats, and by his colleagues and constituents. His own staff said he

had a curious mind They complained that he rarely used the drafts which they had prepared for him George Yeo describes himself as a Taoist even though he is a Roman Catholic and is now on the Papal staff Buddhists are surprised he championed the revival of Nalanda University as an international project He remains close to Singaporeans of different races and religions even though he has a deep sense of his own ancestral roots and religion In politics he has been described both as a liberal and a conservative In his Parliamentary maiden speech he spoke of the importance of democracy but has repeated many times that democracy is only a means and not an end in itself He has a deep interest in history which partly explains his seeing the re emergence of China and India earlier than most others The bonsai and the banyan are metaphors he uses for Singapore Singapore is a city state and must never have an inflated view of itself The bonsai describes Singapore modestly but he adds that the bonsai can be intensely interesting and valuable The banyan provides shade and we are grateful for it but too much makes us weak As for the Tao that perhaps is what gives unity to his many interests

The Chinese Face in Australia Lucille Lok-Sun Ngan, Chan Kwok-bun, 2012-06-07 The book explains how multi generational Australian born Chinese ABC negotiate the balance of two cultures It explores both the philosophical and theoretical levels focusing on deconstructing and re evaluating the concept of Chineseness At a social and experiential level it concentrates on how successive generations of early migrants experience negotiate and express their Chinese identity The diasporic literature has taken up the idea of hybrid identity construction largely in relation to first and second generation migrants and to the sojourner s sense of roots in a diasporic setting somewhat lost in the debate over Chinese diasporas and identities are the experiences of long term migrant communities Their experiences are usually discussed in terms of the melting pot concepts of assimilation and integration that assume ethnic identification decreases and eventually disappears over successive generations Based on ethnography fieldwork and participant observation on multi generational Australian born Chinese whose families have resided in Australia from three to six generations this study reveals a contrasting picture of ethnic identification
