Speechwriting in Perspective Thomas H. Neale, Jean M. Bowers, 2003 Writing for the spoken word is a special discipline it requires that speechwriters products be written primarily although not exclusively to be heard not read Speeches are better cast in simple direct and often short sentences that can be easily understood by listeners Rhetorical devices such as repetition variation cadence and balance are available to and should be used by the speechwriter It is important for speechwriters to analyse audiences according to factors such as age gender culture profession and income level size of audience political affiliation if any and on the occasion for or purpose of the speech Most effective speeches do not exceed 20 minutes in length After researching a topic speechwriters must prepare an outline from which the speech will be developed They should strive to maintain a clear theme throughout the speech Most speeches will have a three part structure consisting of an introduction a body and a conclusion The accepted style of contemporary American public address is natural direct low key casual and conversational This puts the listeners at ease and promotes a sense of community between the audience and speaker Punctuation should reflect the sound structure of the speech reinforcing the rhythm and pace of actual speech Clarity of expression is as important a consideration in speech grammar as rigid adherence to the rules for written law This book presents the essentials of speechwriting Preface Speechwriting in Perspective A Brief Guide to Effective and Persuasive Communication Thomas H Neale Public Speaking and Speechwriting Selected References Jean M Bowers Index

The Portable Plato Plato, 1977-03-01 Writing in the fourth century B C in an Athens that had suffered a humiliating defeat in the Peloponnesian War Plato formulated questions that have haunted the moral religious and political imagination of the West for more than 2 000 years what is virtue How should we love What constitutes a good society Is there a soul that outlasts the body and a truth that transcends appearance What do we know and how do we know it Plato's

inquiries were all the more resonant because he couched them in the form of dramatic and often highly comic dialogues whose principal personage was the ironic teasing and relentlessly searching philosopher Socrates In this splendid collection Scott Buchanan brings together the most important of Plato's dialogues including Protagoras The Symposium with its barbed conjectures about the relation between love and madness Phaedo and The Republic his monumental work of political philosophy Buchanan's learned and engaging introduction allows us to see Plato both as a commentator on his society and as a shaper of the societies that followed who bequeathed to us a hunger for the ideal as well as a redeeming habit of humane skepticism
