*What is Knowledge?* Jose Ortega y Gasset,2002-01-01 Appearing in English for the first time this book comprises two of Ortega s most important works Qu es conocimiento and the essay Ideas y creencias This is Ortega s attempt to systematically present the foundations of his metaphysics of human life and on that basis to provide a radical philosophical account of knowledge In so doing he criticizes idealism and overcomes it Accordingly this book goes well beyond a treatise on epistemology in fact as understood in modern philosophy this discipline and its questions are shown to be derivative and in that sense they are transcended here by Ortega s systematic effort Written during the time of his maturity these works are representative of his fruitful and radical period Both Qu es conocimiento and Ideas y creencias are equally decisive not only for the understanding and radical completion of Ortega s work but also for their relevance to the work of continental philosophers during the same period and for years to come e g Husserl Jaspers Heidegger Sartre and others
