Public Administration Select Committee, 2013 This report into the implementation of the Charities Act 2006 finds the Charity Commission being asked to do too much with too little The charitable sector is at the heart of UK society involving millions of people and 9.3 billion received in donations in 2011 2012 Around 25 new applications for charitable status are received by the Charity Commission every working day Among the reports findings are one of the keys tests set by the Charities Act 2006 for determining charitable status the public benefit test is critically flawed the Government should revise the statutory objectives for the Charity Commission to allow the Commission to focus its limited resources on regulating the sector the proposal to increase the financial threshold for compulsory registration of a charity with the Charity Commission should be rejected charities should publish their spending on campaigning and political activity PASC criticises the way the Charity Commission has interpreted public benefit under the Act The Committee also considered the impact of face to face fundraising or chugging on the street or on the doorstep and warns that self regulation has failed so far to generate the level of public confidence which is essential to maintain the reputation of the charitable sector The evidence was clear that the regulation of fundraising remains a concern for many members of the public Two in three people have reported feeling uncomfortable as a result of the fundraising methods used by some charities **Werner's Voice Magazine** ,1889 **The Mark Lane Express, Agricultural Journal &c** ,1896 *The National Provisioner* ,1913 *Sessional Papers* Ontario.
