Perspectives on Recruiting International Students Belal Shneikat,Cihan Cobanoglu,Cem Tanova,2021-06-01 Although many countries have created effective strategies to recruit more international students due to proven economic and social benefits recruiting international students as a field of research lacks coherence Filling this gap this book provides a holistic and comprehensive overview of this emerging research area **Making the Heavens Speak** Peter Sloterdijk,2023-01-05 The idea of a connection between poetry and religion is as old as civilization Homer consulted the Olympian gods on the fate of the fighters on the plain before Troy and the poet made the heavenly ones speak It was through poetry that the gods were brought within reach of human hearing In the centuries after Homer the Athenian stage became the setting where gods made their poetic interventions resolving human impasses and contributing to the emotional synchronization of the public life of the city Sloterdijk argues that as with the culture of the Ancient Greeks all religions inscribe a kind of theopoetry at the heart of their cultural life and thought even as they strenuously obscure these poetic origins through the cultivation and enforcement of orthodox norms Sloterdijk also shows how in conditions of religious pluralism religions poetically reshape themselves to accommodate the demands of the religious marketplace This highly original study of the poetic devices that
