Hearing Things Leigh Eric Schmidt, 2002-11-30 Faith cometh by hearing so said Saint Paul and devoted Christians from Augustine to Luther down to the present have placed particular emphasis on spiritual arts of listening In quiet retreats for prayer in the noisy exercises of Protestant revivalism in the mystical pursuit of the voices of angels Christians have listened for a divine call But what happened when the ear tuned to God's voice found itself under the inspection of Enlightenment critics This book takes us into the ensuing debate about hearing things an intense entertaining even spectacular exchange over the auditory immediacy

of popular Christian piety The struggle was one of encyclopedic range and Leigh Eric Schmidt conducts us through natural histories of the oracles anatomies of the diseased ear psychologies of the unsound mind acoustic technologies from speaking trumpets to talking machines philosophical regimens for educating the senses and rational recreations elaborated from natural magic notably ventriloquism and speaking statues Hearing Things enters this labyrinth all the new disciplines and pleasures of the modern ear to explore the fate of Christian listening during the Enlightenment and its aftermath In Schmidt's analysis the reimagining of hearing was instrumental in constituting religion itself as an object of study and suspicion The mystic's ear was hardly lost but it was now marked deeply with imposture and illusion *Sound-Blind* Alex

Benson,2023-11-14 In the 1880s a new medical term flashed briefly into public awareness in the United States Children who had trouble distinguishing between similar speech sounds were said to suffer from sound blindness The term is now best remembered through anthropologist Franz Boas whose work deeply influenced the way we talk about cultural difference In this fascinating work of literary and cultural history Alex Benson takes the concept as an opening onto other stories of listening writing and power stories that expand our sense of how a syllable a word a gesture or a song can be put into print and why it matters Benson interweaves ethnographies memoirs local color stories modernist novels silent film scripts and more Taken together these seemingly disparate texts by writers including John M Oskison Helen Keller W E B Du Bois F Scott Fitzgerald and Elsie Clews Parsons show that the act of transcription never neutral is conditioned by the histories of race land and ability By carefully tracing these conditions Benson argues we can tease out much that has been left off the record in narratives of American nationhood and American literature [Relationship Development Intervention with Young](#)
