The Big Three Allies and the European Resistance Tommaso Piffer, 2024 While the Big Three and their continental Allies fought against Nazi Germany another war was under way on the continent the war to shape the political landscape of post war Europe In the Balkans the war overlapped with political and ethnic conflicts engulfing the region in bloody civil wars In Central and Eastern Europe partisan movements engaged the Germans without losing sight of the danger posed by the arrival of the Red Army In France and in Italy the adoption of the slogans of national liberation provided the communist parties with a formidable democratic legitimacy which established them as key players in the political lives of their countries The British and the Americans worked to stir up support control and direct these resistance groups London created the Special Operations Executive SOE and Washington the Office of Strategic Services OSS both of whom sent agents into occupied Europe to liaise directly with the guerilla groups Through the Comintern Moscow carefully coordinated the actions of the European communist parties with the foreign policy of the Soviet Union which was acting for the first time as a key player in the arena of international relations The forests and the mountains where the partisans were fighting the Germans soon became a major part of the proxy war that the Big Three waged to shift the post war geopolitical balance in their favour Looking for the first time at the Big Three in a comparative study and spanning Europe from Yugoslavia to Poland from Greece to France and Italy this book vividly depicts and sharply analyses how this proxy war shaped the history of the post war settlement In so doing Piffer deftly connects high political histories with history from below making the book important reading for all those interested in the history of the war and cold war communism and Resistance and diplomacy and intelligence

The Transformation of Europe's Armed Forces

Anthony King, 2011-01-13 As a result of new strategic threats Europe's land forces are currently undergoing a historic transformation which may reflect wider processes of European integration Europe's mass mainly conscript armies are being replaced by smaller more capable professionalised militaries concentrated into new operational headquarters and rapid reaction brigades able to plan command and execute global military interventions At the same time these headquarters and brigades are co operating with each other across national borders at a level which would have been inconceivable in the twentieth century As a result a transnational military network is appearing in Europe the forces in which are converging on common forms of military expertise This book is a groundbreaking study of the military dimensions of European integration which have been largely ignored until now It will appeal to scholars across the social sciences interested in the progress of the European project and the nature of the military today *Fuel Line*, 2005 *JAGC Personnel and Activity Directory and Personnel Policies* United States. Army. Office of the Judge Advocate General, *The Praetorian STARShip : the untold story of the Combat Talon*, 2001 Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C 130 derivative ever produced First modified and sent to Southeast Asia SEA in 1966 to replace theater unconventional warfare UW assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff JCS chose the Combat Talon to lead the night low level raid on the North Vietnamese prison camp at Son Tay Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long range clandestine operations In the period following the Vietnam War United States Air Force USAF special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever increasing threat to our nation Under the leadership of such committed hard driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force It was capable of penetrating hostile airspace at night in a low level mountainous environment covertly to execute any number of unconventional warfare missions *Overseas Basing of U.S. Military Forces* Michael J. Lostumbo, Michael J. McNerney, Eric Peltz, Derek Eaton, David R. Frelinger, 2013-04-15 This independent assessment is a comprehensive study of the strategic benefits risks and costs of U S military presence overseas The report provides policymakers a way to evaluate the range of strategic benefits and costs that follow from revising the U S overseas military presence by characterizing how this presence contributes to assurance deterrence responsiveness and security cooperation goals *Dept. of Defense Authorization for Appropriations for FY 2013*, ...S. Secret Army Martin Mace, 2012-12-19 The Special Operations Executive was one of the most secretive organizations of the Second World War its activities cloaked in mystery and intrigue The fate therefore of many of its agents was not revealed to the general public other than the bare details carved with pride upon the headstones and memorials of those courageous individuals Then in 2003 the first batch of SOE personal files was released by the National Archive Over the course of the following years more and more files were made available Now at last it is possible to tell the stories of all those agents that died in action These are stories of bravery and betrayal incompetence and misfortune of brutal torture and ultimately death Some died when their parachutes failed to open others swallowed their cyanide capsules rather than fall into the hands of the Gestapo many died in combat with the enemy most though were executed by hanging by shooting and even by lethal injection The bodies of many of the lost agents were never found destroyed in the crematoria of such places as Buckenwald Mauthausen and Natzweiler others were buried where they fell All of them should be remembered as having undertaken missions behind enemy lines in the knowledge that they might never return Special Operations Success James D. Kiras, 2024-10-24 Special Operations Success establishes a new benchmark in military theory in this deeply analytic and innovative work It answers several pressing questions How successful have American special operations been over the past quarter century Are special forces fated to cycles of expansion and misuse Will special forces invariably exceed the authorities granted to them because of they are Is a general theory of special operations feasible given the range of activities and conditions that fall under the category Kiras work is based on two decades of practical teaching and consulting experience within different special operations communities and its analysis and conclusions are designed to inform practitioners policymakers educators and the general public The book develops a framework in the form of a theory comprising capabilities and control for the comprehensively evaluating special operations success and is divided into three parts Part I lays the foundation for a general theory of special operations Part II explores the two component parts of theory capabilities and control and Part III uses various aspects of the theory depending on available information to assess the success of special operations over a twenty year period in the United Kingdom South Africa and the United States
