Spectators Guide To World Religions An Introduction To The Big Five:

A Spectator's Guide to World Religions John Dickson, 2008 In this timely book John Dickson presents each of the world's major religions. He carefully outlines the history, belief systems, and spiritual practices of Hinduism, Buddhism, Judaism, Christianity, and Islam so that the interested and curious spectator can explore their similarities and differences. **Student Handbook, a Spectator's Guide to World Religions** Simon Smart, John Dickson, 2004-01-01 In a multi-cultural world with an ever-growing diversity of ethnic and religious belief, the study of comparative religion, worldviews, and value systems has never been more relevant. This handbook examines the claims of the world's five major religions: Hinduism, Buddhism, Judaism, Islam, and Christianity; what they teach, how they view the world, how they differ from one another, and most importantly, challenges the reader to see that these five religions cannot all be true. Written for Year 10 and 11, the student handbook contains a range of stimulating and thought-provoking activities designed to help the student wrestle with the claims of each religion. Publisher's website: A Spectator's Guide to World Religions John Dickson, 2008 *Examine Your Faith!* Pamela Christian, 2013-07 Well, meaning people want to believe that all roads lead to the same God and heaven. But wanting something to be true is far different from truth lining up with reality. Unless you make an intentional effort to examine what you believe and why you believe it, it's quite possible you are living your life on the basis of a lie and don't know it. What is truth? Is it relative or absolute? Is it personal or universal? What are the differences among the various religious faiths? Can they be blended? Are we creating faith, a belief system that is impotent by trying to accept all religions as equal? *Life of Jesus* John Dickson, 2010-09-07 What really happened back in the first century in Jerusalem and around the Sea of Galilee that changed the shape of world history? Who is this figure that emerges from history to have a profound impact on culture, ethics, politics, and philosophy? Join historian John Dickson on this journey through the life of Jesus. This book, which features a self-contained discussion guide for use with *Life of Jesus* DVD, will help you and your friends dig deeper into what is known about Jesus' life and why it matters. John Dickson has done a marvelous job of presenting the story of Jesus and the full meaning of that story in a way that is both deeply faithful to the biblical sources and refreshingly relevant to tomorrow's world and church. I strongly recommend this study to anyone who wants to re-examine the deep historical roots of Christian faith and to find them as life-giving as they ever were. Tom Wright A Doubter's Guide to World Religions John Dickson, 2022-03-15 For believers and skeptics alike, *A Doubter's Guide to World Religions* introduces the five major world religions so that you can explore their similarities and differences in a fair and engaging way. The world is a very religious place. Wherever you look, people are worshipping, praying, believing, following, even dying for their faith. But what does it mean to be religious? Are all religions the same? Do they all call on the same God, simply using different names? Are their beliefs and practices simply cultural expressions of the same spiritual longings? Written by historian and theologian John Dickson in his characteristically engaging style, this book presents each of the world's five major systems of faith, carefully outlining the history, doctrines,

beliefs and spiritual practices of Hinduism The Way of Release Buddhism The Way of Enlightenment Judaism The Way of the Torah Christianity The Way of the Christ Islam The Way of Submission In his own words Dickson acts as an art curator in a gallery presenting each of these works of art in their best light and letting each have their say Along the way he demonstrates the importance of religion in general to society and to individual believers and addresses many of the universal questions that all of these serious and ancient religions ask Who are we What is our worth How should we live Are we alone At the end of each section is a bibliography of helpful books and websites for those who are interested in learning even more

Growing Yourself Up Jenny Brown, 2017-11-01 To be human is to be in relationships We can t survive without them but it s in relationships that we can so easily get unravelled Some relationships just seem to do us in Either we feel like we lose ourselves or feel burnt out from futile efforts to make things right for another In our relationships we can experience the very best of ourselves and the very worst The message of Growing Yourself Up is that you can t separate understanding the individual from understanding relationships All of life s relationships are integral to increasing self awareness and maturity And it s not necessarily the comfortable relationships that promote personal growth In this 2nd edition of the bestselling book Jenny examines how to help others without fostering dependency and how to determine what kind of help you or others want from therapists This is in response to the many lay and professional people who have found this book valuable personally and want to know how to help others grow Drawing from Bowen family systems theory the book takes you on a journey through each stage of life to see predictable patterns of relationships and to show how to use this knowledge to make purposeful adjustments in yourself as well as lending a mature helping hand to others The result is a sturdier self sturdier relationships and a refreshing new way to view life s challenges and opportunities

Think Big! Rosemary Ludt, 2020-07-01 Think Big: A Resource Manual for Library Programs That Attract Large Teen Audiences is a how-to manual for librarians who want to attract large groups of teens to their libraries with meaningful, memorable events. Large programs may seem to be impossible to attempt until the project is broken down into the separate parts needed. Think Big begins with those separate parts necessary to create a large event, starting with the logistics of time and place, the budget and how to find funding, making a timeline to make everything fall into place, communication among all of the people involved, marketing to the teen audience, troubleshooting with thorough preparation and the importance of evaluations for reporting and for future planning. Part 2 is a collection of best practices. Seventeen successful large programs are included, contributed by librarians who have dared to think big and made it work. Included are the book and author programs in school and public libraries. There are also creative programs about poetry and dance, STEM activities, pop culture and school and work. Every section has two to four programs. Each program explains how the program began and evolved to the event it is today. A timeline, how the program was financed, who assisted to make every step successful, how the program was publicized and how evaluations were collected and written are provided in detail to empower a librarian to tackle their first time big program. **Harper's Weekly** John Bonner, George William Curtis, Henry Mills Alden, Samuel Stillman Conant, Montgomery Schuyler, John Foord, Richard Harding Davis, Carl Schurz, Henry Loomis Nelson, John Kendrick Bangs, George Brinton McClellan Harvey, Norman Hapgood, 1900 **Bulletin of the Atomic Scientists**, 1972-09 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security.
