Speech And Power:

Introduction to Power in Speech Leonard G. Nattkemper, 1927 Speech Power Adelbert Brown, 1962 **Left Wing, Right Wing, People, and Power** Douglas Giles, 2024-03-26 This is a rare work of political theory that stands out for its conversational style and readability Its persuasion relies on easy to follow arguments and logical conclusion in order to repaint the intractable modern political landscape as a vast misunderstanding of what is important in politics IndependentBookReview.com What is politics and why is it so contentious Avoiding partisan diatribe Left Wing Right Wing People and Power traces the historical development of the left wing and the right wing to reveal that the core of politics is the conflict over power Despite specific differences of time and place political actions are consistently efforts to preserve or change the structure and dynamics of power With this insight we can better understand political positions and actions Written in an accessible style this book will inform readers regardless of where they see themselves on the political spectrum With clear but nuanced definitions of political ideologies and movements the author shows how politics is people seeking to express and expand their power in the social space around them Thus the clash of the left and right wings is not about grand ideologies but instead is about power relations and the flow of power among people Left Wing Right Wing People and Power is a well researched and thoughtful guide through the ideological rift that has dominated the political spectrum for centuries Giles deftly probes the modern left right wing factions vying for power in the United States and elsewhere He exposes the perceived misconceptions about the left and the right and is evenhanded in his criticism Giles book excels in approaching a contentious topic and deconstructing it for his reading audience in a concise manner Reedsy **The Art of Power Speech** Salem Guimba, 2019-07-24 Why is it that most of the speeches are dull boring and have no power to hold the attention of audience Likewise why is it that so many speeches are well researched the substance is excellent yet when it comes to the actual presentation of address the oration has no strength to win hearts and influence minds What are the important factors missing both in the preparations and presentations And why is it that only a very few speeches are stunning There are so many countless millions of lifeless wearisome declamations anywhere globally You can see them everywhere Such is one sad reality in the world of speech profession But then why are there some lasting and memorable masterpieces And what is to be done to make every address a powerful piece a power speech The book is about the effective techniques to make power speeches win the hearts and influence the minds of audience On how to make an impact and effect a change through the force of a short span but powerful speech to animate actions and arouse a movement is the core emphasis of this manual This great objective can be done by way of a masterful designing of one of the most important factors in speech the carefully designed combination of verbal and nonverbal languages It is primarily focused on the effective incorporation of spoken words into the sphere of nonverbal elements such as coached eye and eye brow movements lips formation and other components of facial expressions voice modulation and variation tone management and control hand and arm gestures and

footwork stage movements and theatrical presentation and all the rest of the regulated body language factors in a speech to conquer This is what a power speech is all about in this book A speech to stun excite and activate to influence motivate and move a mountain The book can be an important speech kit by the following group of amateur or professional practitioners Mass communication and journalism students political and religious leaders preachers and public speakers inspirational orators radio and TV broadcasters active campaigners to win election votes social activists for human rights advocacy court room lawyers senate congress grandstanding specialists military agitators debaters and teachers even including movie and theatre actors actresses The book is not about a lifeless classroom lecture or an academic dull idea presentation but all concerning an exciting power speech A fascinating speech of power to intensely touch the heart and passionately inspire the soul To move a mountain Making the assembly speechless This must be the foremost aspiration of all great speakers Touching the hearts and enlightening the minds either to make a change or to ignite a movement or just to promote a business Power speech is just only words but look at history it could achieve lot of incredible things It can declare a world war or advance a global peace Review the most important affairs in history For the past two thousand years beginning from Cicero to Trump it is all about power speeches to war or peace to progress or barbarism to justice or massacre to invasion or revolution and a lot more The book does not teach what to say but rather on how explosive do you say it to stun and win the audience attention aimed at controlling and driving the assembly towards affection or excitement concern or commotion fervor or grief and sadness or joy It is an emotive elocution that makes the speaker ecstatic and fervent hot blooded and almost hysterical but all the time under control affecting his her very own passion and impressing the congregation It is a book geared at how the speaker is excitable and at the same time exciting the audience

Rhetoric and Power Nathan Crick, 2014-10-28 An examination of how intellectuals and artists conceptualized rhetoric as a medium of power in a dynamic age of democracy and empire In *Rhetoric and Power* Nathan Crick dramatizes the history of rhetoric by explaining its origin and development in classical Greece beginning the oral displays of Homeric eloquence in a time of kings following its ascent to power during the age of Pericles and the Sophists and ending with its transformation into a rational discipline with Aristotle in a time of literacy and empire Crick advances the thesis that rhetoric is primarily a medium and artistry of power but that the relationship between rhetoric and power at any point in time is a product of historical conditions not the least of which is the development and availability of communication media Investigating major works by Homer Heraclitus Aeschylus Protagoras Gorgias Thucydides Aristophanes Plato Isocrates and Aristotle *Rhetoric and Power* tells the story of the rise and fall of classical Greece while simultaneously developing rhetorical theory from the close criticism of particular texts As a form of rhetorical criticism this volume offers challenging new readings to canonical works such as Aeschylus's *Persians* Gorgias's *Helen* Aristophanes's *Birds* and Isocrates's *Nicocles* by reading them as reflections of the political culture of their time Through this theoretical inquiry Crick uses these criticisms to articulate and define a plurality of rhetorical genres and

concepts such as heroic eloquence tragicomedy representative publicity ideology and the public sphere and their relationships to different structures and ethics of power such as monarchy democracy aristocracy and empire Rhetoric and Power thus provides a foundation for rhetorical history criticism and theory that draws on contemporary research to prove again the incredible richness of the classical tradition for contemporary rhetorical scholarship and practice

Powers of Expression, Expressions of Power Andrew Laird, 1999-11-18 Can a speaker's words ever be faithfully reported History philosophy ethnography political theory linguistics and literary criticism all involve debates about discourse and representation By drawing from Plato's theory of discourse the lively analysis of speech presentation in this book provides a coherent and original contribution to these debates and highlights the problems involved when speech becomes both the object and the medium of narrative representation The opening chapters offer fresh insights on ideology intertextuality literary language and historiography and reveal important connections between them These insights are then applied in specific critical treatments of Virgil's Aeneid of Petronius Satyricon and of scenes involving messengers and angels in classical and European epic Throughout this study ancient texts are discussed in conjunction with examples from later traditions Overall this book uses Latin literature to demonstrate the theoretical and ideological importance of speech presentation for a number of contemporary disciplines
