Colon, 2012-02-09 The familiar stories of the good Samaritan the prodigal son and Lazarus and the rich man were part of the cultural currency in the nineteenth century and Victorian authors drew upon the figures and plots of biblical parables for a variety of authoritative interpretive and subversive effects However scholars of parables in literature have often overlooked the 19th century novel assuming that realism bears no relation to the subversive iconoclastic genre of parable In this book Susan E. Colon shows that authors such as Charles Dickens Margaret Oliphant and Charlotte Yonge appreciated the power of parables to deliver an ethical charge that was as unexpected as it was disruptive to conventional moral ideas Against the common assumption that the genres of realism and parable are polar opposites this study explores how Victorian novels despite their length verisimilitude and multi plot complexity can become parables in ways that imitate interpret and challenge their biblical sources Harper's Weekly John Bonner, George William Curtis, Henry Mills Alden, Samuel Stillman Conant, Montgomery Schuyler, John Foord, Richard Harding Davis, Carl Schurz, Henry Loomis Nelson, John Kendrick Bangs, George Brinton McClellan Harvey, Norman Hapgood, 1870 **Charles Dickens, 1812-1870** Brooklyn Public Library, 1912 **The Founders of Child Neurology** Stephen Ashwal, 1990 *A Siren* Thomas Adolphus Trollope, 1871 Man and Wife Wilkie Collins, 1871 *The Flaneur in Nineteenth-Century British Literary Culture* Isabel Vila-Cabanes, 2018-10-15 The flaneur is a cultural and literary phenomenon usually associated with nineteenth century Paris but the type also exists in the artistic and literary panorama of other major European capitals such as London Berlin and

Moscow Despite massive recent interest in the figure of the flaneur in scholarly studies analyses about the nineteenth century British analogue are often fragmentary appearing in the form of isolated articles However there is an abundant amount of nineteenth century novels sketches and journalistic essays which offer remarkable and hitherto overlooked accounts of the British metropolis and which frequently include the figure of the flaneur as a central character or the topic of flanerie as a theme This book explores a great array of texts making an essential contribution to our knowledge and understanding of the prehistory or rather history of the British flaneur from the early eighteenth century to the early twentieth century with a special focus on the nineteenth century The flaneur is looked at as a figure in which the development and dynamics of the modern metropolis and its impact on the literary discourse are manifested from a formal as well as thematic perspective **Speeches literary and social by Charles Dickens. Now first collected. With chapters on "Charles Dickens as a Letter Writer, Poet, and Public Reader."** [Edited by R. H. Shepherd. With a **bibliography.**] Charles Dickens, 1870
