Consciousness and Writing brings together a collection of critical reflections on Peter Malekin's model of the mind which he saw as a crucial yet often neglected aspect of critical theory in relation to theatre literature and the arts. The volume begins with a selection of Peter Malekin's own writings that lay out his critique of western culture, its overstated claims to universal competence and validity, and lays out an alternative view of consciousness that draws partly on Asian traditions and partly on underground traditions from the west. The essays that follow, commissioned for this volume, critically examine Malekin's ideas, drawing out their implications in a variety of contexts including theatre, liturgical performance, poetry, and literature. The book ends with an assessment of future prospects opened by this work.

Psychotherapy of Character: The Play of Consciousness in the Theater of the Brain Robert A. Berezin, 2015-06-18. Eddie's mother was up on a ladder cleaning the kitchen ceiling when her water broke. She was annoyed at the interruption and the mess. Contemporary psychiatry has fallen under the sway of biological reductionism where our patients do not receive proper care. They are treated primarily or exclusively with psychoactive drugs. The result has been a pharmaceutical epidemic with psychiatric drug sales topping 70 billion a year. Pharmaceutical psychiatry ignores the complexities of the human condition as if the agency of human suffering can be cured by a pill. Eddie never really enjoyed swimming; he couldn't stop water from pouring into his nose and sinuses. It didn't occur to him to tell his counselors; never mind his parents where he could have gotten nose clips. It didn't occur to him that anyone would be responsive to his needs. In *Psychotherapy of Character*, Dr. Berezin presents a much-needed alternative to the prevailing doctrine, one that is grounded in an understanding of human nature. Suffering is not a brain problem; it is a human problem. He illuminates the practice and effectiveness of psychotherapy through the story of his patient Eddie. Eddie's complicated inner life, varied experiences, and ultimate breakthrough stand in contrast to the destructive and false promises of a magical cure. He introduces a new and inclusive paradigm of consciousness for the twenty-first century. On the surface, he lived a successful college life. Eddie was due to graduate with honors and was accepted into a prestigious PhD program in biology. All the while, he felt alone and dead inside. No one really knew him.
