Political Dialogue, 2021-09-20 **Nationalist Politics and Everyday Ethnicity in a Transylvanian Town** Rogers Brubaker, Margit Feischmidt, Jon Fox, Liana Grancea, 2018-06-05 Situated on the geographic margins of two nations yet imagined as central to each Transylvania has long been a site of nationalist struggles Since the fall of communism these struggles have been particularly intense in Cluj Transylvania's cultural and political center Yet heated nationalist rhetoric has evoked only muted popular response The citizens of Cluj the Romanian speaking majority and the Hungarian speaking minority have been largely indifferent to the nationalist claims made in their names Based on seven years of field research this book examines not only the sharply polarized fields of nationalist politics in Cluj Transylvania and the wider region but also the more fluid terrain on which ethnicity and nationhood are experienced enacted and understood in everyday life In doing so the book addresses fundamental questions about ethnicity where it is when it matters and how it works Bridging conventional divisions of academic labor Rogers Brubaker and his collaborators employ perspectives seldom found together historical and ethnographic institutional and interactional political and experiential Further developing the argument of Brubaker's groundbreaking *Ethnicity without Groups* the book demonstrates that it is ultimately in and through everyday experience as much as in political contestation or cultural articulation that ethnicity and nationhood are produced and reproduced as basic categories of social and political life **Devolution in Britain Today** Colin Pilkington, 2002 A comprehensive and up to date analysis of devolved government in Britain today *Let's talk politics* Hilde Van Belle, Kris Rutten, Paul Gillaerts, Dorien Van De Mierop, Baldwin Van Gorp, 2014-04-15 In this volume on political argumentation the study of argument takes place within a rhetorical framework As such it is a contribution to the study of argumentation in

context with an explicit rhetorical approach Rather than focusing on the poor quality of political participation and political understanding by citizens this volume explores how the study of rhetoric both as an academic discipline and as a political practice stands in a unique position to critically engage with a contextualized understanding of politics and civic engagement Many contributions in this volume confront classical rhetorical concepts and theories with current political developments such as globalization and multiculturalism and the emergence of new democracies Others focus explicitly on deliberative rhetoric in the political realm or undertake a critical analysis of political texts and public events in order to explore what this can imply for the development of a critical citizenship
