Personally Speaking Candace Spigelman, 2004-10-07 Responding to contemporary discussion about using personal accounts in academic writing *Personally Speaking: Experience as Evidence in Academic Discourse* draws on classical and current rhetorical theory, feminist theory, and relevant examples from both published writers and first-year writing students to illustrate the advantages of blending experiential and academic perspectives. Candace Spigelman examines how merging personal and scholarly worldviews produces useful contradictions and contributes to a more complex understanding in academic writing. This rhetorical move allows for greater insights than the reading or writing of experiential or academic modes separately does. *Personally Speaking* foregrounds the semi-fictitious nature of personal stories and the rhetorical possibilities of evidence as Spigelman provides strategies for writing instructors who want to teach personal academic argument while supplying practical mechanisms for evaluating experiential claims. The volume seeks to complicate and intensify disciplinary debates about how compositionists should write for publication and what kinds of writing should be taught to composition students. Spigelman not only supplies evidence as to why the personal can count as evidence but also relates how to use it effectively by including student samples that reflect particular features of personal writing. Finally, she lays the groundwork to move narrative from its current site as confessional writing to the domain of academic discourse.

Shadowplay Tad Williams, 2007-03-06 A year ago the March Kingdoms were at peace and the Eddon family held the throne. King Olin Eddon is a prisoner in a faraway land and Olin's heir Kendrick is dead, slain by treachery and dark, bloody magic. With their father and brother taken from them, the royal twins, Barrick and Briony, have done their best to hold the kingdom together, but now Barrick has been captured in a failed war against the immortal Twilight People, and Briony has been forced to flee. Behind the Shadowline, Prince Barrick is lost and spellbound in the land of the fairies, while Princess Briony finds both allies and deadly enemies in unexpected places far from the land of her birth. During their desperate journeys, the twins discover that even a land's rulers may know little of its true history and that both families and nations can hide dark and terrible secrets. But even if Barrick and Briony survive, learning the astonishing truths at the heart of their own family and of Southmarch itself, they must still find a way to do the impossible: they must reclaim their kingdom and rescue their home and people from the multitude of powerful enemies, from traitors, tyrants, a god-king, and even the angry gods themselves.
