Tallies Song:

Words and Songs of Bessie Smith, Billie Holiday, and Nina Simone Melanie E. Bratcher, 2007-11-21 This book explores the relationship between three African American women's dance art music sensibilities within the context of a Pan African aesthetic. Its purpose is three fold to show commonalities between Bessie Smith, Billie Holiday and Nina Simone's lives and original compositions to codify, examine and evaluate their selected song performances in accordance with the Pan African aesthetic. Nzuri theory model and to illuminate the vast sources of transformational values that aesthetic analysis of African American song performance can foster. Following concordant procedures and principles of Afrocentricity, the study focuses on Smith, Holiday and Simone's performances as part of a whole African artistic and cultural value system. The goal of the Afrocentric methodological structure is to locate relevant African dynamics in songs and to promote knowledge for cultural transformation and continuity. Its use in this study provides meta criteria for analyzing African American music which the author has used to uniquely argue connections between African cultural memory and African derived cultural expression.

U2's Songs of Trauma and Hope Ingunn Røysland, 2024-03-18 In U2's *Songs of Trauma and Hope* Between the Midnight and the Dawning, Ingunn Røysland and Charles Ivan Armstrong show that trauma is an important theme for U2. While this leads the band to confront extreme instances of grief and suffering, this does not prevent them to cross in the words of their song *A Sort of Homecoming* the fields of mourning to a light that's in the distance. Theories from trauma and memory studies are deployed in the examination of song lyrics and performances by U2 spanning from the early days of the band to more recent times. In their exploration of light and dark of hope and trauma within the U2 catalogue, Røysland and Armstrong acknowledge the complexity of the songs addressing different layers including romantic as well as divine allegory. The authors also address the band's troublesome lyrics with an entire chapter devoted to *Sunday Bloody Sunday* as well as the role of multidirectional memory and significant places, so called *lieux de mémoire* in U2's dealings with a range of historical conflicts and crises. They further examine how music plays an important part in the path of healing from traumatic wounds, analysing the reception of the songs. Ultimately, it is suggested U2 shows us how to get through the night. *Great Graphing*

This book is about these songs and their impact on Chinese culture and literary practice. It examines the tapestry books in which popular songs circulated, how books shaped readers, how books were shaped by a range of literacies and how arrangements of performance texts aided imitation and selection of words or phrases. Publishing histories of the popular song collections bring to light how songs were duplicated for readers among the elite and sub elite. The

analysis of how popular songs bring together the high and the low is of special value for literary scholars and intellectual historians and challenges the traditional dichotomy between elite and popular culture **Chinese Seals** Weizu Sun, 2004
