Tank Tracks To Rangoon:

Tank Tracks to Rangoon Bryan Perrett, 2014-04-30 A look at how British and Indian forces used tank warfare against the Japanese during World War II in modern day Myanmar Fighting in a somewhat forgotten corner of empire during the Second World War the British and Indian armored regiments called upon to harness the power of tank warfare to extreme new levels did so in an effort to outwit an army until that point considered invincible the Imperial Japanese Army Their collective heroic massively effective efforts gave the Japanese a taste of mechanized warfare from which they never recovered Author Bryan Perrett describes the full course of the armored units endeavors illustrating the importance of the mighty 7th Armoured Brigade a magnificent formation in General Slim's estimation In a conflict that saw much development in the field of tank design and production Perrett illustrates the practical repercussions of such advances in this most extreme of wartime environments Detailed research has produced hard evidence of the Japanese use of gas against British tanks and countless instances of Japan's human bomb anti tank technique Above all this book shows to what extent the tank can prove a decisive weapon in the unlikeliest areas Praise for Tank Tracks to Rangoon A valuable examination of the crucial role armor played in the long Burmese campaign and the impressive way in which the British and Allied tanks and tankers performed their difficult duties History of War **Armoured Warfare in the British Army 1939-1945** Dick

Taylor, 2022-10-21 The second volume in Dick Taylor's three volume illustrated history of the evolution of armored maneuver warfare in the British army covers the period of the Second World War in which the tank came of age and developed into the principal land weapon of decision He describes how during the first half of the war the British army came close to disaster from the armored warfare perspective and how the bitter lessons of failure were learned in time to deliver success in 1944 and 1945 As well as providing a fascinating overview of the tactical use of armor during the main campaigns he considers such much neglected aspects as the role of training and organization officer selection and recruitment and the mechanization of other arms His wide ranging book also features extensive well laid out tables giving key information about British armor during this period This expert account quotes heavily from the vivid recollections of soldiers who served in armor and is not afraid to criticize as well as praise **British Tank Crewman 1939-45** Neil Grant, 2017-11-30 Great Britain had introduced

the tank to the world during World War I and maintained its lead in armoured warfare with the Experimental Mechanised Force during the late 1920s watched with interest by German advocates of Blitzkrieg Despite these successes the Experimental Mechanised Force was disbanded in the 1930s making Britain relatively unprepared for World War II both in terms of armoured doctrine and equipment This fully illustrated new study examines the men who crewed the tanks of Britain's armoured force during World War II which was only four battalions large in 1939 It looks at the recruitment and training of the vast numbers of men required their equipment appearance and combat experience in every theatre of the war as the British armoured division sought to catch up with the German Panzers **The Jungle, Japanese and the British**

Commonwealth Armies at War, 1941-45 Tim Moreman, 2013-04-15 This book focuses on the British Commonwealth armies in SE Asia and the SW Pacific during the Second World War which following the disastrous Malayan and Burma campaigns had to hurriedly re train re equip and re organise their demoralised troops to fight a conventional jungle war against the Imperial Japanese Army IJA British Indian and Australian troops faced formidable problems conducting operations across inaccessible rugged and jungle covered mountains on the borders of Burma in New Guinea and on the islands of the SW Pacific Yet within a remarkably short time they adapted to the exigencies of conventional jungle warfare and later inflicted shattering defeats on the Japanese This study will trace how the military effectiveness of the Australian Army and the last great imperial British Army in SE Asia was so dramatically transformed with particular attention to the two key factors of tactical doctrine and specialised training in jungle warfare It will closely examine how lessons were learnt and passed on between the British Indian and Australian armies The book will also briefly cover the various changes in military organisation medical support and equipment introduced by the military authorities in SE Asia and Australia as well as covering the techniques evolved to deliver effective air support to ground troops To demonstrate the importance of these changes the battlefield performance of imperial troops in such contrasting operations as the First Arakan Campaign fighting along the Kokoda Trail and the defeat of the IJA at Imphal and Kohima will be described in detail **The Late Colonial**

Indian Army Pradeep Barua, 2021-11-04 The Indian Army was one of the most important colonial institutions that the British created From its humble origins as a mercantile police force to a modern contemporary army in the Second World War this institution underwent many transitions This book examines the Indian Army during the later colonial era from the First Afghan War in 1839 to Indian independence in 1947 During this period the Indian Army developed from an internal policing force to a frontier army and then to a conventional western style fighting force capable of deployment to overseas theaters These transitions resulted in significant structural and doctrinal changes in the army The doctrines and tactics honed during this period would have a dramatic impact upon the post colonial armies of India and Pakistan From civil military relations to fighting and structural doctrines the Indian and Pakistani armies closely reflect the deep seated impact of decades of evolution during the late colonial era *Kohima: The Furthest Battle* Leslie Edwards, 2009-03-01 By the end of 1943 the

Japanese had occupied most of South East Asia On 6 March 1944 the first units of the Japanese 15 Army crossed the inhospitable border of what was then Burma and invaded India At the township of Kohima they were met by a small hastily assembled force of Indian and British troops later reinforced by 2 Division of Slim s 14 Army who fought valiantly and forced the Japanese to retreat Described by Mountbatten as the British Indian Thermopylae Kohima was a turning point in Japanese fortunes heralding their continued defeat in battle until their formal surrender on 2 September 1945 Using extensive research in primary sources and many previously unpublished first hand accounts Leslie Edwards presents a definitive analysis of this pivotal battle *Japanese Army Handbook 1939-1945* Lieutenant Colonel George Forty OBE, 2002-12-16 This

is an insight into the most feared army of World War II The Japanese Imperial Army grew from 1 5 million men in 1939 to 5 5 million men by the end of the war Their highly successful campaigns in the Far East and the Pacific at the beginning of World War II were every bit as spectacular as those of the Germans in Europe and they earned an enviable reputation as expert jungle fighters which it took some years for the Allies to match Their code of honour also made them extremely cruel enemies to prisoners and civilians alike while their Kamikaze suicidal tendencies meant they would automatically fight to the last without any thought of surrender Fully illustrated with rare archive photographs this is a comprehensive study of the army The author describes how they mobilized and trained their soldiers and looks at their organizational structures from high command down to divisional level and below Also included are uniforms equipment all kinds of weapons ranging from tanks and artillery technical equipment tactics symbology and vehicle markings **We Gave Our Today** William

Fowler,2009-02-26 The Lost Voices of our Forgotten Army in the war with Japan 1941 45 Nearly a million strong by 1944 the British 14th Army fought and ultimately conquered the Japanese forces that invaded Burma and strove to break through into India But the victory was hard won with great suffering along the way With priority given to defeating Germany these troops were last in line for additional men and equipment and they joked about being The Forgotten Army Here is the story of these remarkable soldiers whose monument at Kohima reads When You Go Home Tell Them Of Us And Say For Their Tomorrow We Gave Our Today Dawns Like Thunder Alfred Draper,1987-06-01 Firsthand accounts of the Japanese invasion of Burma during World War II including the Sittang Bridge disaster and the actions of Sir John Smyth More than two years into World War II Britain stood alone fighting for survival and waiting for Hitler to launch Operation Sealion an invasion from across the Channel But in faraway Burma life continued as if nothing was happening The local European community continued their social lives filled with dancing swimming golf bridge and polo Even though the sinking of battleships Prince of Wales and Repulse which had been sent to Singapore by Churchill brought a minor sense of discomfort preparations for Christmas continued The Governor Sir Reginald Dorman Smith assured that there was no immediate danger and that not only was Burma ready to defend itself it was preparing to take the offensive against the enemy He couldn't have been more wrong On December 23rd Japanese bombers appeared in the sky above Rangoon Dawns Like Thunder is a complete appraisal of the retreat from Burma using accounts from people who were there and not just the statements of commanding officers It is an attempt to recount what many soldiers civilians and officials involved in the defeat of Burma felt at the time bringing to life the shock and fear that gripped the population after the Japanese brought the war to their doorsteps

Forgotten Allies J. Lee Ready,1985-01-01 Many nations played a role as belligerents on the Allied side in World War II Many were in the thick of combat and made grave national sacrifices yet general histories mention them only briefly or omit their story entirely The assisting troops are given their due in this unique comprehensive and readable history Included are chapters about land and sea troops from such countries as Fiji Trans Jordan Luxembourg Brazil Iran and Nigeria as well as

Maori Assyrians Gurkhas Free Poles and others Knowing the lines drawn more than 70 years ago between sides will enable anyone to understand better national enmities and relations today
