

The Tantric Distinction

An Introduction to Tibetan Buddhism

Jeffrey Hopkins

Edited by Anne C. Klein

Tantric Distinction

Jeffrey Hopkins

Tantric Distinction:

The Tantric Distinction Jeffrey Hopkins, 1984 After publishing over twenty books mostly translations of Buddhist texts Prof Jeffrey Hopkins felt compelled to write a personal account of Buddhism and its practices In The Tantric Distinction the ideas concepts and methods of Buddhism are confronted and allowed to resonate with his own character Hopkins has the ability to clarify complicated ideas and bring them to life He cuts through the theories of Buddhism and brings them vividly into the realm of experience Explaining emptiness gurus meditation the cherishing of others and the Bodhisattva ideal Hopkins shows how the mind is addicted to the lies that the senses tell it and describes the process of cutting through this craziness Buddhists call cyclic existence

The Tantric Distinction Jeffrey Hopkins, 2013-10-23 The ideas concepts and methods of various religions must be tried on for size must be lifted above museum displays must be confronted and allowed to resonate with one's own character It is in this spirit that I present here a personalized account of central Buddhist practices from the author's preface Widely recognized as one of the West's leading scholars of Tibetan Buddhism Professor Jeffrey Hopkins is renowned for his textual translations and original scholarship For ten years he served as the principal English translator for His Holiness the Dalai Lama The Tantric Distinction is his effort to make accessible the complexities of this highly sophisticated philosophy by sharing his personal individual experience with Buddhist thought and practice It lays out the entire Buddhist path as a living experience

The Secret of the Three Cities Douglas Renfrew Brooks, 1990 The esoteric Hindu traditions of Tantrism have profoundly influenced the development of Indian thought and civilization Emerging from elements of yoga and wisdom traditions shamanism alchemy eroticism and folklore Tantrism began to affect brahmanical Hinduism in the ninth century Nevertheless Tantrism and its key historical figures have been ignored by scholars This accessible work introduces the concepts and practices of Hindu Sakta Tantrism to all those interested in Hinduism and the comparative study of religion

Visions of Unity Yaroslav Komarovski, 2011-12-01 This landmark book discusses the thought of Tibetan Buddhist thinker Shakya Chokden 1428-1507 on the two major systems of Mahayana Buddhism Influential and controversial in his own day Shakya Chokden's thought fell out of favor over time and his writings were eventually repressed becoming available again only in the 1970s Yet his startling interpretations of the core areas of Buddhist thought remain valuable and well worth consideration today Yaroslav Komarovski has used the twenty-four volumes of Shakya Chokden's collected work to provide a systematic presentation of a central aspect of his thought a reconciliation of Yogic and Madhyamaka Providing a detailed analysis of the two systems mutual refutations of each other Shakya Chokden argues for their fundamental compatibility and shared vision In analyzing Shakya Chokden's ideas Komarovski explores some of the most important issues of both traditional and modern Buddhist scholarship including contested approaches to the nature of reality the relationship between philosophy and contemplative practice inter and intrasectarian Buddhist polemics and the nature of consciousness and mental processes

Methods in Buddhist Studies Scott A. Mitchell, Natalie Fisk

Quli,2019-06-27 Both a demonstration of and critical self reflection on method this book explores how methodologies shape our understanding of the diversity of Buddhist traditions in the past and the present International contributors from the West and Asia explore case studies and reflect on methods in the study of Buddhism united in their debt to Richard K Payne the influential Buddhist studies scholar *Methods in Buddhist Studies* features new translations of Buddhist works as well as ethnographic studies on contemporary Buddhism in the United States and China Topics discussed include Buddhist practices in relation to food material culture and imperial rituals the development of modern Buddhist universities the construction of the canon from the perspective of history textual analysis and ritual studies and the ethical obligations of scholars toward the subject of Buddhism itself Chapters are drawn from Payne s students and his colleagues demonstrating the breadth of his intellectual interests Payne s scholarship has left a remarkable impact on the field making this volume essential reading for students and scholars of contemporary Buddhism and Buddhist studies **Hidden Intercourse** Wouter J.

Hanegraaff,Jeffrey Kripal,2008-12-31 From rumours about gnostic orgies in antiquity to the explicit erotic symbolism of alchemical texts from the subtly coded eroticism of medieval kabbalah to the sexual magic practiced by contemporary occultists and countercultural translations of Asian Tantra the history of Western esotericism is rich in references to the domains of eros and sexuality This volume which brings together an impressive array of top level specialists is the first to analyze the eroticism of the esoteric without sensationalism or cheap generalizations but on the basis of expert scholarship and attention to textual and historical detail While there are few other domains where the imagination may so easily run wild the various contributions seek to distinguish fact from fiction only to find that historical realities are sometimes even stranger than the fantasies In doing so they reveal the outlines of a largely unknown history spanning more than twenty centuries Language in the Buddhist Tantra of Japan Richard K. Payne,2018-08-09

Language in the Buddhist Tantra of Japan Richard K. Payne,2018-08-09 Language in the Buddhist Tantra of Japan dismantles the preconception that Buddhism is a religion of mystical silence arguing that language is in fact central to the Buddhist tradition By examining the use of extraordinary language evocations calling on the power of the Buddha in Japanese Buddhist Tantra Richard K Payne shows that such language was not simply cultural baggage carried by Buddhist practitioners from South to East Asia Rather such language was a key element in the propagation of new forms of belief and practice In contrast to Western approaches to the philosophy of language which are grounded in viewing language as a form of communication this book argues that it is the Indian and East Asian philosophies of language that shed light on the use of language in meditative and ritual practices in Japan It also illuminates why language was conceived as an effective means of progress on the path from delusion to awakening Western Esotericism and the Science of Religion International Association for the History of Religions. Congress,International Association for the History of Religions,1998 This volume is based upon papers read during the innovative section Western Esotericism and the Science of Religion organized at the 17th International Congress of the International Association for the History of Religions IAHR in Mexico City August 5 12 1995

The section was created in order to fill a long standing hiatus in the academic study of religions whereas phenomena such as gnosticism and hermetism in antiquity and even the occult sciences of that period have long been recognized as subjects worthy of serious investigation the history of similar and related phenomena in more recent periods has hardly received the same measure of scholarly attention and recognition The present volume is devoted to the academic emancipation of these areas as constituting a legitimate domain of research which may be referred to by the generic label western esotericism Preceded by an introductory essay on the birth of this new discipline in the study of religion the volume provides a sample of current research in the field and devotes special attention to some central methodological questions *Echoes of*

Enlightenment Suzanne M. Bessenger, 2016-06-29 *Echoes of Enlightenment* explores the issues of gender and sainthood raised by the recently discovered liberation story of the fourteenth century Tibetan female Buddhist practitioner S nam Peldren Born in 1328 S nam Peldren spent most of her adult life as a nomad in eastern Tibet until her death in 1372 She is believed to have been illiterate lacking religious education and unconnected to established religious institutions For that reason and because as a woman her claims of religious authority would have been constantly questioned S nam Peldren's success in legitimizing her claims of divine identity appear all the more remarkable Today the site of her death is recognized as sacred by local residents Suzanne Bessenger draws on the new found biography of the saint to understand how the written record of the saint's life is shaped both by the hagiographical agendas of its multiple authors and by the dictates of the genres of Tibetan religious literature including biography and poetry She considers S nam Peldren's enduring historical legacy as a fascinating piece of Tibetan history that reveals much about the social and textual machinations of saint production Finally she identifies S nam Peldren as one of the earliest recorded instances of a historical Tibetan woman successfully using the uniquely Tibetan hermeneutic of deity emanation to achieve religious authority **Buddhist Sects**

and Sectarianism Bibhuti Baruah, 2000 This Title Is A Historical Analysis Of Origin And Development Of Buddhist Sects And Sectarianism In The History Of The Succession Of Schools It Is Found That The First Schism In The Sangha Was Followed By A Series Of Schisms Leading To The Formation Of Different Sub Sects And In The Course Of Time Eleven Such Sub Sects Arose Out Of The Theravada While Seven Issued From The Mahasasngnikas All These Branches Of Buddhist Sects Appeared One After Another In Close Succession Which In Three Or Four Hundred Years After The Buddha's Parinirvana Here We Focus On Following Important Aspects Growth And Ramification Of Buddhist Sects And Sectarian Schools Mahayana Buddhism Theravada Buddhism Tantric Buddhism Yogacara Newar Buddhism Bhutanese Buddhist Sects Protestant Buddhism Nichiren Buddhism Amida Buddhism Tendai Buddhism Shingon Buddhism Zen Buddhism Millennial Buddhism There Are Different Authorities Such As The Traditions Of The Theravadins Sammitiyas Mahasanghikas And Subsequently The Tibetan And Chinese Translations Which Give Us Accounts Of The Origin Of The Different Sects And Sectarianism

As recognized, adventure as well as experience nearly lesson, amusement, as with ease as treaty can be gotten by just checking out a books **Tantric Distinction** plus it is not directly done, you could undertake even more approximately this life, more or less the world.

We present you this proper as with ease as simple habit to get those all. We find the money for Tantric Distinction and numerous books collections from fictions to scientific research in any way. in the midst of them is this Tantric Distinction that can be your partner.
