Tarantulas Scorpions In Captivity Professional Breeders Series:

Tarantulas and Scorpions in Captivity Russ Gurley, 2005-01-01 This is an important addition to the Professional Breeders Series by well known breeder and Keeper Russ Gurley. He offers care and breeding information as well as 26 species accounts. The keeping of invertebrates as pets is growing across the planet. Tarantulas and scorpions are at the front of this exciting movement. The keeping and breeding of captive tarantulas and scorpions is truly an art form. The number of captive invertebrates available to hobbyists worldwide is directly related to the breeding programs being established by keepers. Probably more than any other section of the exotic pet market, the invertebrate offspring produced by breeders take pressure off of the wild populations. These wild populations are under extreme pressure from deforestation, pollution, and habitat destruction. The need to be able to properly take care of tarantulas and scorpions in captivity is important to their future in the hobby. With this book, author Russ Gurley hopes to inspire new keepers and to share some of his expertise with successfully keeping and breeding the most interesting species of tarantulas and scorpions being kept in captivity. Included are helpful hints for successful husbandry and mating and tips that have helped keepers maintain some of the most exciting invertebrates in captivity.
