Target Earth Govert Schilling, 2025-04-15 An acclaimed science writer tells the story of cosmic projectiles that may be on a collision course with our Earth. The impact of an asteroid led to the extinction of the dinosaurs. Could another giant cosmic missile soon be heading our way? In *Target Earth*, acclaimed Dutch astronomy writer Govert Schilling provides a full account of what we know and need to know about all the extraterrestrial matter constantly bombarding our planet from microscopic dust particles and space debris to massive meteorites, comets, and asteroids. Drawing on the latest scientific discoveries, Schilling explores virtually every aspect of cosmic impacts from small meteorites to devastating collisions from the craters that mark our planet's surface to the impacts that left their mark on other celestial bodies and from searches for near-miss lumps of rock to ways of protecting humanity from an assault from the cosmos. Along the way, he considers near-misses in the past and the possibility of others in the future and ponders the positive side of these visitations from space. If our planet had not been the target of cosmic rubble from its very formation, life on Earth would likely never have gotten started.

Target Earth Tom Young, 2021-03-30 *Target Earth* is the final book of the Emily Smith Trilogy. Emily Smith, Sasha, and Blain are in the voids of space between the Andromeda Galaxy and the Milky Way Galaxy, together commanding the Earth and Andrian Space Forces in an effort to destroy the alien entity from the Eighth Dimension. Their sheer numbers indicated that it is not possible to destroy them; therefore, their strategy changed to deter them from the earth for as long as possible. With Sasha leading Space Commandos to board and destroy their command ships, they believed this tactic would allow Sara time to marshal earth's civilian and military defenses to help evacuate as much of Humanity and Andrians as possible onto Intergalactic Seed Carriers and launch them to different quadrants of the Universe. It was at this time they realized that the enemy was using delaying tactics of its own to allow an attack on the earth from a different direction, thus avoiding Space Command's major defensive fleet. Sara used her childhood friend Kyla to contact anti-government forces and enlist their aid in defending the earth. The newly commissioned civilian commander Frank Morningstar took on this task and allied himself with the military to develop a strong defense. With this alliance in place, most defenders believed they could defeat the enemy aliens. During an intelligence-gathering attack by the enemy, Sara nearly gets herself killed by diving in front of an acid stream intended for her friend Kyla. The resultant death toll was over a thousand beachgoers. Soon after, enemy alien warships burst through wormholes in ever-increasing numbers, too numerous to count.

Next Target - Earth! Johnny W. Underwood, 2025-05-19 In *Next Target Earth*, an alien civilization, multiple thousands of years in advanced technology, has interfered with life on Earth even before the demise of the dinosaurs. Their meddling resulted in the creation of atomic weapons during WWII. Earth is now in the middle of the twentieth century, and the alien civilization has determined that humanity is advancing in technology too fast and will again eliminate all life on Earth as they did when the dinosaurs became a bore to them. Fortunately for Earth, the aliens are fighting a war with a sister civilization in their own galaxy, so the

Earth is a secondary target for now This alien civilization is a mirror image of humans Their inability to understand that peaceful cooperation is preferable to aggressively eliminating life forms that are not part of their civilization reflects the divisions found on Earth throughout the existence of humans on our planet Constant wars and lack of empathy for others has needlessly deprived humanity of hundreds of thousands of resources that could have been used for the betterment of the human race instead of the wanton destruction those wars have wrought The book ends with the burning question Is there anyone or something else out there About the Author Johnny W Underwood is a career soldier joining the US Army at age seventeen immediately after graduating from high school in Arkansas He survived basic combat training at Fort Polk Louisiana in the summer of 1968 and completed advanced individual training as an engineer heavy equipment operator at Fort Leonard Wood Missouri After AIT he was assigned to a field artillery unit in Germany and was promoted into the ranks of the cannoneers He served in Germany for a cumulative total of eleven years and at Fort Sill Oklahoma the home of the field artillery for a total of thirteen years six and a half of those years were as a drill sergeant Other assignments include a tour in Vietnam in 1969 70 two years in South Korea and three years at Fort Lewis Washington He completed the US Army Sergeants Major Course at Fort Bliss Texas in 1986 as a member of Class 27 and was the command sergeant major of three battalions two brigades and a Corps Artillery for the last twelve years of his thirty year Army career After retiring from the Army he was a Zone Manager for GEICO s local office program for five years and a manager in the GEICO Military Department for fourteen years He retired from GEICO in 2017 He lives in Northern Virginia with his wife of more than thirty six years
