Target for Murder Guy Elwyn Giles, 1943 *The Road to Murder* Adam Lynes, 2017-05-08 Why do serial killers gravitate towards certain kinds of occupation Why do they pursue certain types of victim How do they leave the radar and remain hidden Through his wide knowledge of the topic honed at one of Britain's leading centres for criminological studies Adam Lynes demonstrates how theory practice profiling and behaviour intertwine to identify the kind of people we should fear and especially if we are vulnerable to predators The book also looks at those personality types most likely to become serial killers whilst hiding in plain sight From Britain's serial killing studies centre of excellence Looks in depth at eight of Britain's serial killer drivers dealing with some of the most notorious crimes of modern times A fresh and uniquely interesting perspective Demonstrates the links between mobility transience recognisance predatory behaviour and acting out murderous fantasies From the text It is apparent that driving as a form of occupational choice is a popular form of employment for British serial murderers In an effort to determine why this may be the case studies of eight British serial murderers in the book demonstrate just how such an occupation can impact upon these offenders criminal behaviour These findings may prove to be of benefit to scholars of serial murder and to those who attempt to apprehend them Laws Relating to Sex, Pregnancy, and Infancy Carmen M.
