Have Not Been the Same Michael Barclay, Ian A.D. Jack, Jason Schneider, 2011-06 A history of Canadian rock from the late 20th century featuring a series of interviews and rare photographs of the artists that shaped the Canadian music industry

The Philosophy of the Commentators, 200-600 AD: Psychology (with ethics and religion) Richard Sorabji, 2005 This is the first work to draw on the four hundred years of transition from ancient Greek philosophy to the medieval philosophy of Islam and the West During this period philosophy was often written in the form of commentaries on the works of Plato and Aristotle Many ideas wrongly credited to the Middle Ages derive from these centuries such as that of impetus in dynamics and intentional objects in philosophy of mind The later Neoplatonist commentators fought a losing battle with Christianity but inadvertently made Aristotle acceptable to Christians by ascribing to him belief in a Creator God and human immortality The commentators provide a panorama of up to a thousand years of Greek philosophy much of which would otherwise be lost They also serve as the missing link essential for understanding the subsequent history of Western philosophy Volume 1 deals with psychology which for the Neoplatonist commentators was the gateway to metaphysics and theology It was the subject on which Plato and Aristotle disagreed most and on which the commentators went furthest beyond them in their search for synthesis Ethics and religious practice fall naturally under psychology and are included in this volume All sources appear in English translation and are carefully linked and cross referenced by editorial comment and explanation Bibliographies are provided throughout

Being for Beauty Dominic McIver Lopes, 2018-09-13 No values figure as pervasively and intimately in our lives as beauty and other aesthetic values They animate the arts as well as design fashion food and entertainment They orient us upon the natural world And we even find them in the deepest insights of science and mathematics For centuries however philosophers and other thinkers have identified beauty with what brings pleasure Concerned that aesthetic hedonism has led us to question beauty s significance Dominic McIver Lopes offers an entirely new theory of beauty in this volume Beauty engages us in action in concert with others in the context of social networks Lopes s network theory explains the social dimension of aesthetic agency the tie between beauty and pleasure the

importance of disagreement in matters of taste and the reality of aesthetic values as denizens of the natural world The two closing chapters shed light on why aesthetic engagement is so important to quality of life and why it deserves and gets lavish public support Being for Beauty offers a fresh contribution to aesthetics but also to thinking about metanormativity the metaphysics of value and virtue theory

Moral Theory and Medical Practice K. W. M. Fulford, 1989 In this unique study Fulford combines the disciplines of rigorous philosophy with an intimate knowledge of psychopathology to overturn traditional hegemonies The patient replaces the doctor at the heart of medicine Moral theory and the logic of evaluation replace epistemology as the focus of philosophical enquiry Ever controversial mental illness is at the interface of philosophy and medicine Mad or bad Dissident or diseased Dr Fulford shows that it is possible to achieve new insights into these traditional dilemmas insights at once practically relevant and philosophically significant

The Human Condition Hannah Arendt, 2019-01-11 The renowned political thinker and author of The Origins of Totalitarianism examines the troubling consequences of humanity's increasing power A work of striking originality The Human Condition is in many respects more relevant today than when it first appeared in 1958 In her study of the state of modern humanity Hannah Arendt considers humankind in terms of its ever expanding capabilities Her analysis reveals a troubling paradox that as human powers increase through technological and humanistic inquiry we are less equipped to control the consequences of our actions This new edition contains Margaret Canovan's 1998 introduction and a new foreword by Danielle Allen A classic in political and social theory The Human Condition offers a penetrating analysis of a conundrum that has only become more acute in the 21st century
