Laura Anne Kalba, 2017-04-21 This study analyzes the impact of color making technologies on the visual culture of nineteenth century France from the early commercialization of synthetic dyes to the Lumière brothers' perfection of the autochrome color photography process Focusing on Impressionist art Laura Anne Kalba examines the importance of dyes produced in the

second half of the nineteenth century to the vision of artists such as Edgar Degas Pierre Auguste Renoir and Claude Monet The proliferation of vibrant new colors in France during this time challenged popular understandings of realism abstraction and fantasy in the realms of fine art and popular culture More than simply adding a touch of spectacle to everyday life Kalba shows these bright varied colors came to define the development of a consumer culture increasingly based on the sensual appeal of color Impressionism emerging at a time when inexpensively produced color functioned as one of the principal means by and through which people understood modes of visual perception and signification mirrored and mediated this change shaping the ways in which people made sense of both modern life and modern art Demonstrating the central importance of color history and technologies to the study of visibility Color in the Age of Impressionism adds a dynamic new layer to our understanding of visual and material culture

**Exploring the Frontiers of Fiction: Humour, Modernism and Narrative Form in Virginia Woolf's "Jacob's Room" (1922)** Lindy van Rooyen, 2012-02-15 Inhaltsangabe Introduction Virginia Woolf is not a popular writer Despite a fierce pride in her work it was never her ambition to be one Most people have heard of her work vaguely associating it with the second wave of the women's liberation movement in the 1970s and the type of fiction that is commonly called difficult and few people unfamiliar with her work would associate her reputation with humour These are some of the first impressions of a writer who is now hailed by scholars of English literature as one of the icons of modernism To speak of first impressions of Virginia Woolf's work is not as fatuous as it may seem After all Woolf's fiction was initially founded on impressions and I hope to show that one of the distinctive characteristics of her oeuvre compared to other modernists like T S Eliot W B Yeats or James Joyce is the intensely visual nature of her art Furthermore she is often associated with a movement of modern painting in the early twentieth century known as Post Impressionism including painters like Cezanne Picasso and Georges Braque Finally laughter in all its

registers whether merry cruel or parodic runs like a golden thread throughout the texture of her essays short stories and novels as satire does more generally throughout modernism I have chosen Virginia Woolf s third novel *Jacob s Room* 1922 as the focus of my study of Woolf s modernism It is not her best known novel as most critical acclaim is reserved for *Mrs Dalloway* 1925 or *To the Lighthouse* 1927 She started writing fiction in 1915 just as the First World War started and for four reasons I believe that *Jacob s Room* is the perfect starting point from which to survey Woolf s particular contribution to the Modernist Movement Firstly the social catastrophe associated with the First World War is widely considered to be the decisive historic event in the collective consciousness of early twentieth century Europe its effects reverberating throughout the literary and visual arts in the 1920s Secondly *Jacob s Room* was published in a year which falls nicely within the boundaries of the period of High Modernism which culminated in the decades between 1910 and 1930 Indeed the year of 1922 marks the publication of two other seminal modernist works T S Eliot s *Wasteland* and James Joyce s *Ulysses* Thirdly *Jacob s Room* is commonly regarded as Virginia Woolf s first experimental novel in which she in her own phrase

**A Theory of the Tache in Nineteenth-Century Painting** ?stein Sj?ad,2017-07-05 Without question the tache blot patch stain is a central and recurring motif in nineteenth century modernist painting Manet s and the Impressionists rejection of academic finish produced a surface where the strokes of paint were presented directly as patches or blots then indirectly as legible signs C nne Seurat and Signac painted exclusively with patches or dots Through a series of close readings this book looks at the tache as one of the most important features in nineteenth century modernism The tache is a potential meeting point between text and image and a pure trace of the artist s body Even though each manifestation of tacheism generates its own specific cultural effects this book represents the first time a scholar has looked at tacheism as a hidden continuum within modern art With a methodological framework drawn from the semiotics of text and image the author introduces a much needed fine tuning to the classic terms index symbol and icon The concept of the tache as a crossing of sign types enables finer distinctions and observations than have been available thus far within the Peircean tradition The sign crossing theory opens onto the whole terrain of interaction between visual art art criticism literature philosophy and psychology

*Conrad and Impressionism* John G. Peters,2001-03-15 John Peters investigates the impact of Impressionism on Conrad and links this to his literary techniques as well as his philosophical and political views He investigates the sources and implications of Conrad s impressionism in order to argue for a consistent link between his literary technique philosophical presuppositions and socio political views
