

The Spiritual Exercises with Teilhard de Chardin

Sunday, September 22, 2024 1 pm EDT | ZOOM

Presenter: Agustin Udias, SJ, professor emeritus of Geophysics, Universidad Complutense, Madrid, a member of the European Academy and corresponding member of the Royal Academy of History

Respondent: Margie Thompson, SSJ, MFA, artist and spiritual director

For Teilhard, the Spiritual Exercises of St. Ignatius must be adapted to the new circumstances and desires of a world influenced by the progress of science and technology. With the help of passages from Teilhard's retreat notes, Udias suggests new ways to implement Teilhard's suggestions.

Technology And The Healing Of The Earth Teilhard Studies

Michael Zils

Technology And The Healing Of The Earth Teilhard Studies:

Technology and the Healing of the Earth Thomas Berry, 1986 **America's Teilhard** Susan Kassman Sack, 2019

America's Teilhard Christ and Hope in the 1960s is a study of the reception of Teilhard in the United States during this period and contributes to an awareness of the thought of this important figure and the impact of his work. Additionally, it further develops an understanding of U.S. Catholicism in all its dimensions during these years and provides clues as to how it has unfolded over the past several decades. Susan Sack argues that the manner and intensity of the reception of Teilhard's thought happened as it did at this point in history because of the confluence of the then developing social milieu, the disintegration of the immigrant Catholic subculture, and the opening of the church to the world through Vatican II. Additionally, as these social and historical events unfolded within U.S. culture during these years, the way Teilhard was read and the contributions which his thought provided changed. This book considers his work as a carrier at times for an almost Americanist emphasis upon progress, energy, and hope. In other years, his teleological understanding of the value of suffering moves to center. Additionally, the stories of numerous persons—scientists, theologians, politicians, and scholars—who became involved in the American Teilhardian effort are detailed.

The Intellectual Journey of Thomas Berry Heather Eaton, 2014-04-02

Thomas Berry had a gentle yet mesmerizing and luminescent presence that was evident to anyone who spent time with him. His intellectual scope and erudite manner were compelling, and the breadth, depth, clarity, and elegance of his vision was breathtaking. Berry was an intellectual giant and cultural visionary of extraordinary stature. Thomas Berry's vast knowledge of history, religions, and cultural histories is a unique blend revealing a genuine original thinker. The ecological crisis in all its manifestations came to dominate Berry's concerns. He perceived that the greatest need was to offer the possibility of a viable future for an Earth community. Many know of his proposal for a functional cosmology, the need for a new story, and a vital Earth-sensitive spirituality. Few know of his rich and varied intellectual journey. *The Intellectual Journey of Thomas Berry: Imagining the Earth Community* is about the roots and insights hidden within his ecological spiritual proposal. These essays, written by experts on Thomas Berry's work, probe into and reveal distinct themes that permeate his work in gratitude for his contribution to the Earth.

Thomas Berry Tucker, Mary Evelyn, Grim, John, 2016-01-12

Thomas Berry 1914-2009 was a priest, a geologist, and a historian of religions. He was an early and significant voice awakening religious sensibilities to the environmental crisis. He is particularly well known for articulating a universe story that explores the world-changing implications of contemporary science. Berry pointed the way to an ecological spirituality attuned to our place in nature and giving rise to an ethic of responsibility and care for the Earth.

Between Science and Religion Phillip M. Thompson, 2009-08-15

In exploring the role of Catholic intellectuals in engaging science and technology in the twentieth century, this book initially provides a background context for this evolution by examining the Modernism crisis in the first chapter. In order to unpack the subsequent evolution, Thompson then concentrates in separate chapters on the distinctive

contributions of four specific Catholic intellectuals Jacques Maritain 1882D1973 Pierre Teilhard de Chardin 1881D1955 Bernard Lonergan 1904D1984 and Thomas Merton 1915D1968 All of these intellectuals experienced some degree of official restraint in their efforts but through their distinctive intellectual trajectories they contributed to a different engagement of the Church with science and technology In the final chapters the book first reviews the changes within the institutional Church in the twentieth century toward science and technology Finally it then applies some key ideals of the four intellectuals to anneal and extend John Paul II s approach of critical openness to suggest how the Church can now engage science and technology

Living Cosmology Tucker, Mary Evelyn,Grim, John,2016-04-13 Teilhard Lexicon Sion Cowell,2004-06-01 Written to enable researchers and students to better understand the specialised language of Teilhard s transdisciplinary approach which he found himself compelled to develop as a means of expressing that extraordinary vision of a universe in process of convergence towards a cosmic centre of unity he identifies with the Cosmic Christ

Green Witness Laura Ruth Yordy,2010-04-29 A call for the reappraisal of why Christians can and should work towards the wholeness of the biophysical environment Green Witness explores the church s role as exemplar in striving towards the fulfillment of God s promise of peace health and diversity to his Kingdom An insightful work in theological ethics

Teilhard in the 21st Century Arthur Fabel,2003 Almost fifty years after his death the work of Pierre Teilhard de Chardin French Jesuit mystic and scientist continues to shape contemporary work in spirituality theology and the interaction of science and religion These essays show how this giant of the twentieth century sheds light on the most urgent spiritual challenges of our time Book jacket

Who's who in Theology and Science ,1996 The Lord's Dealing Robert L. Faricy,1988

Komunitas Bumi : Etika Bumi Larry L.rasmussen,2010 *Human Becoming in an Age of Science, Technology, and Faith* Philip Hefner,2022-08-23 What does it mean to be human in an age of science technology and faith The ability to ask such a question suggests at least a partial answer in that however we describe ourselves we bear a major role in determining what we will become In this book Philip Hefner reminds us that this inescapable condition is the challenge and opportunity of Homo sapiens as the created co creator In four original chapters and an epilogue Hefner frames the created co creator as a memoirist with an ambiguous legacy explores some of the roots of this ambiguity emphasizes the importance of answering this ambiguity with symbols that can interpret it in wholesome ways proposes a partial theological framework for co creating such symbols and applies this framework to the challenge of using technology like artificial intelligence and robotics to create other co creators in our own image Editors Jason P Roberts and Mladen Turk have compiled eight responses to Hefner s work to honor his scholarly career and answer his call to help co create a more wholesome future in an age of science technology and faith

Deep Ecology and World Religions David Landis Barnhill,Roger S. Gottlieb,2010-03-29 Bringing together thirteen new essays on the important relationship between traditional world spirituality and the contemporary environmental perspective of deep ecology this landmark book explores

parallels and contrasts between religious values and those proposed by deep ecology In examining how deep ecologists and the various religious traditions can both learn from and critique one another the following traditions are considered indigenous cultures Hinduism Buddhism Taoism Confucianism Judaism Catholicism Islam Protestantism Christian ecofeminism and New Age spirituality

Earth Community Earth Ethics Larry L. Rasmussen, 1996 In this important new book social ethicist Larry Rasmussen lays the foundations for an approach to faith and ethics appropriate to a community of the earth in all its peril and promise Earth Community Earth Ethics is a comprehensive treatment that synthesizes insights from religion ethics and environmentalism in a single vision for creating a sustainable community Earth Community Earth Ethics is arranged in three parts In the first Rasmussen scans our global situation and brings into relief the extraordinary range of dangers threatening all life on our planet In part two he explores worlds of religion ethics and human symbolism to glean from them the resources for a necessary conversion to earth Finally he sketches a constructive ethic that can guide us out of our present situation While its principle focus is environmental ethics Earth Community Earth Ethics builds on the foundations of international discussions of sustainable development and such books as *The Ecology of Commerce* and *Envisioning a Sustainable Society* Rasmussen shows how the environmental predicament underscores a variety of crises afflicting modern industrial society in economics in politics in gender and reproductive relations as well as the debates on the very meaning of life itself

Cistercian Studies Quarterly ,1991 *Uniform Trade List Annual* ,1989 **Books in Print** ,1991 Scientific and Technical Books and Serials in Print ,1989 World Guide to Scientific Associations and Learned Societies Michael Zils,1994 A listing of international organizations and academic societies in all areas of study culture and technology Also includes national and regional associations Includes a name index with acronyms a subject and a publications index
