Technology Assessment Janine Morgall, 2010-05-05 How gender analysis should inform technology assessment

Technology Assessment Janine Morgall Traulsen, 1993-10-14 How well does technology assessment TA relate to women's lives If women are underrepresented in the long term research and development process that leads to scientific advancements how can TA understand technology aimed at women It can't claim the author of Technology Assessment A Feminist Perspective A relative new field TA examines the social aspect of technology and provides information critical to decision making policy development safety standards and avoiding litigation Until gender analysis is introduced into all assessments of new technologies Janine Marie Morgall argues TA can't evaluate technology's impact upon women Morgall investigates two areas of technology that affect women's lives productive clerical work and reproductive health care Case studies of clerical workers and health care recipients illustrate gender specific effects of technology ranging from word processors to treatments for infertility These studies convincingly demonstrate that TA encourages innovations without questioning their effects on women Issues of dominance control and conflicting values emerge from Morgall's feminist perspective and support her call for gender analysis of new technologies In the series Labor and Social Change edited by Paula Rayman and Carmen Sirianni Developing Technology Assessment Janine Marie Morgall, 1991 Technology assessment TA and medical technology assessment MTA have been gaining in importance and are currently developing as instruments for exercising political and social control over existing as well as future technology The author begins by introducing systematically organized TA and MTA as they evolved from serving as an early warning system to a broader based assessment of social consequences This is followed by a description of how TA and MTA are organized their main features and methods and major problems as well as a critique of frequently used methods She discusses some of the practical problems of TA such as how to involve the public and who should represent the public Using examples of women and technology she introduces the feminist research on technological development followed by a feminist approach to TA and MTA She identifies a variety of feminist perspectives on technological development and discusses the tension between them

Ziman, John Ziman, 2003-09-18 Ground breaking yet non technical analysis of the analogy that technological artefacts evolve like biological organisms *The Other Machine* Dion Farquhar, 2014-04-23 With technological

advances in reproduction no longer confined to the laboratory or involving only the isolated individual women and men are increasingly resorting to a variety of technologies unheard of a few decades ago to assist them in becoming parents The public at large and feminists as a group are confused and divided over how to view these technologies and over what positions to take on the moral and legal dilemmas they give rise to Farquhar argues that two perspectives have tended to dominate feminist discussions of these issues She labels these fundamental feminism and market liberalism By linking a theoretical approach with a practical set of issues Farquhar's *The Other Machine* provides a rigorous analysis of contemporary feminist debates
