Technology for America's Economic Growth, 1994-01 Technology for America's Economic Growth Bill Clinton, Al Gore, United States. President (1993-2001 : Clinton), 1993 The American Economy Nicolas Spulber, 1997-07-13 This work focuses on the economic challenges the American economy has met during the post World War II era and on the new challenges represented notably by the competing economies of Japan Germany and the entire European union that confront it as the twenty first century approaches The book shows how the transformations brought about by international competition fit the long term processes of economic growth and change with respect to structural mutations technological development the role of the government and the evolution of government business relations Nicholas Spulber presents a detailed critique of the thesis alleging that the American economy had experienced some kind of decline and argues that the economy will continue to move forward energetically and successfully if growth and change are primarily left to emerge from the impulses and incentives of the private economy **Technology for America's Economic Growth** Bill Clinton, William J. Clinton, Albert Gore, 1993-07-01 Covers long term economic growth that creates jobs and protects the environment making government more efficient and more responsive world leadership in basic science math and engineering and America s economic strength new initiatives A New Way of Doing Business, 1994 Department of Transportation and Related Agencies Appropriations for 1995: Department of Transportation United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Transportation and Related Agencies Appropriations, 1994 Fiscal Policy and Institutional Renovation in Support of Innovative Country Building Jia Kang, 2020-12-06 Since the onset of the twelfth Five Year Plan China has been at the forefront as an innovative nation based on a carefully designed strategy Despite this it can be argued that the Chinese government requires a series of more effective and systematic fiscal and taxation policies This book analyses the status quo and possible optimization of China s fiscal and taxation policies By drawing comparisons with other countries as well as a practical investigation into the lessons China has drawn from elsewhere the author shows how a nation should make steadily growing and optimized financial investments in science and technology in order to foster the optimum environment for innovation It is shown that institutional innovation should be a systematic project which involves top level design and top down leadership This volume will be a useful reference for students scholars and policy makers who are interested in financial policy **1995 Federal Research and Development Program in Materials Science and Technology** National Science and Technology Council (U.S.). Materials Technology Subcommittee, 1995 MEZZOECONOMICS Chen Yunxian, Gu Wenjing, 2018-05-15 This monograph consists of six major parts elaborating on basic aspects of mezzoeconomics the theory of regional government foresighted leading the dual role theory of regional government the dual entity theory of regional government the double strong mechanism theory and the theoretical configuration of mezzoeconomics as well as the prospects for its development It gives a full exposition of the core issues

approaches and methodological principles of mezzoeconomic researches their breakthrough improvements upon traditional economic theorization and the broad prospects for innovative practices This monograph fills up a blank in the theoretical system of modern economics and signifies a substantial amelioration of the theorization of modern market economy It demonstrates through forceful exemplification and argumentation that there exists in between microeconomics represented by the enterprise and macroeconomics represented by the state mezzoeconomics represented by regional government in the system of modern economics and that both enterprises and regional governments are entities of market competition in the modern market theory which remedies the theoretical defects in traditional economic and market theories and redefines the theories of modern economics and modern market economy **Our Changing Planet** ,1993 **Empowering Technology** Lewis M. Branscomb,1993 experts from Harvard s Center for Science and International Affairs here examine a set of key issues and problems that taken together define the scope and limits of a technology policy Our Changing Planet U.S. Global Change Research Program,1992 **Dual-Use Space Technology Transfer Conference and Exhibition** ,1994 American Technology Policy J. Subcommittee on Department of Transportation and Related Agencies Appropriations,1995 **The Crisis and Renewal of American Capitalism** Laurence Cossu-Beaumont,Jacques-Henri Coste,Jean-Baptiste Velut,2015-12-22 Despite the reversal of America s fortune from the triumphalism of the Roaring Nineties to the gloom of the lost decade and the Great Depression theoretical conceptions of US capitalism have remained surprisingly unchanged In fact if the crisis questioned the sustainability of the US capitalist paradigm it did not fundamentally challenge academic theorization of American political economy This book departs from the American political economy literature to identify three common myths that have shaped our conceptualization of US capitalism its reduction to a state market dyad dis embedded from societal factors the illusion of a weak state and the synchronic conception of the US variety of capitalism To remedy these pitfalls the authors propose a

civilizational approach to American political economy at the crossroads between cultural studies history sociology and political science Drawing together contributions from a rich variety of fields from geography to cultural studies political science and sociology this work sheds a new light on America s cultural political economy combining theoretical reflection with empirical data and offering innovative perspectives on the crisis and renewal of American capitalism **Investing in Innovation** Lewis M. Branscomb, James H. Keller, 1999 Shortly after taking office in 1993 President Bill Clinton and Vice President Al Gore called for a shift in American technology policy toward an expansion of public investments in partnerships with private industry The authors of this volume were invited by the Clinton administration to take a hard nonpartisan look at how successful the new policies have been and to propose ways to make their programs more effective The first summary report of the team s recommendations was called the hottest technology policy property on Capitol Hill This book an expansion of that report offers a new set of technology policy principles The authors use the principles to evaluate many federal research programs and to make recommendations for change This volume will set the terms of the debate over the national research and innovation policy for years to come
