Technology And Culture:

Technology and Culture, 2000 **Leonardo to the Internet** Thomas J. Misa, 2011-05-16 Historian Thomas J. Misa's sweeping history of the relationship between technology and society over the past 500 years reveals how technological innovations have shaped and have been shaped by the cultures in which they arose. Spanning the preindustrial past, the age of scientific, political, and industrial revolutions, as well as the more recent eras of imperialism, modernism, and global security, this compelling work evaluates what Misa calls the question of technology. Misa brings his acclaimed text up to date by examining how today's unsustainable energy systems, insecure information networks, and vulnerable global shipping have helped foster geopolitical risks and instability. A masterful analysis of how technology and culture have influenced each other over five centuries, *Leonardo to the Internet* frames a history that illuminates modern-day problems and prospects faced by our technology-dependent world. Praise for the first edition: Closely reasoned, reflective, and written with insight, grace, and wit, Misa's book takes us on a personal tour of technology and history, seeking to define and analyze paradigmatic technocultural eras. *Technology and Culture* follows Thomas Hughes's model of combining an engaging historical narrative with deeper lessons about technology. American Scholar His case studies, such as that of Italian futurism or the localizations of the global McDonalds, provide good starting points for thought and discussion. *Journal of Interdisciplinary History* This review cannot do justice to the precision and grace with which Misa analyzes technologies in their social contexts. He convincingly demonstrates the usefulness of his conceptual model. *History and Technology* A fascinating, informative, and well-illustrated book. **Choice**

Human-Built World Thomas P. Hughes, 2005-05-13 To most people, technology has been reduced to computers, consumer goods, and military weapons; we speak of technological progress in terms of RAM and CD-ROMs and the flatness of our television screens. In *Human Built World*, thankfully, Thomas Hughes restores to technology the conceptual richness and depth it deserves by chronicling the ideas about technology expressed by influential Western thinkers who not only understood its multifaceted character but who also explored its creative potential. Hughes draws on an enormous range of literature, art, and architecture to explore what technology has brought to society and culture and to explain how we might begin to develop an ecotechnology that works with, not against, ecological systems. From the Creator model of development of the sixteenth century to the big science of the 1940s and 1950s to the architecture of Frank Gehry, Hughes nimbly charts the myriad ways that technology has been woven into the social and cultural fabric of different eras and the promises and problems it has offered. Thomas Jefferson, for instance, optimistically hoped that technology could be combined with nature to create an Edenic environment. Lewis Mumford, two centuries later, warned of the increasing mechanization of American life. Such divergent views, Hughes shows, have existed side by side, demonstrating the fundamental idea that in its variety, technology is full of contradictions, laden with human folly, saved by occasional benign deeds, and rich with unintended consequences. In *Human Built World*, he offers the highly engaging history of these contradictions, follies, and consequences. a

history that resurrects technology rightfully as more than gadgetry it is in fact no less than an embodiment of human values

Technology and Culture Melvin Kranzberg, William H. Davenport, 1972 Leading authorities examine the vital question of the role of the machine in human history and human destiny Cover **The Culture of Technology** Arnold

Pacey, 1985-09-10 The Culture of Technology examines our often conflicting attitudes toward nuclear weapons biological technologies pollution Third World development automation social medicine and industrial decline It disputes the common idea that technology is value free and shows that its development and use are conditioned by many factors political and cultural as well as economic and scientific Many examples from a variety of cultures are presented These range from the impact of snowmobiles in North America to the use of water pumps in rural India and from homemade toys in Africa to electricity generation in Britain all showing how the complex interaction of many influences in every community affects technological practice Arnold Pacey who lives near Oxford England has a degree in physics and has lectured on both the history of technology and technology policy with a particular focus on the development of technologies appropriate to Third World needs He is the author of The Maze of Ingenuity MIT Press paperback Technopoly Neil Postman, 1993-03-31 A witty often terrifying that chronicles our transformation into a society that is shaped by technology from the acclaimed author of Amusing Ourselves to Death A provocative book A tool for fighting back against the tools that run our lives Dallas Morning News The story of our society's transformation into a Technopoly a society that no longer merely uses technology as a support system but instead is shaped by it with radical consequences for the meanings of politics art education intelligence and truth **Technology and Culture** Melvin Kranzberg, 1975-04-01 **Technology and Culture** Allen Batteau, 2010

Technology and Culture provides a comprehensive overview of anthropological and other theories examining the place of technology in culture and the consequences of technology for cultural evolution The book develops and contrasts anthropological discourse of technology and culture with humanistic and managerial views It uses core anthropological concepts including adaptation evolution totemic identity and collective representations to locate a broad variety of technologies ancient and modern in a context of shared understandings and misunderstandings The author draws on his own experience as an auto mechanic computer programmer ethnographer and aircraft pilot to demonstrate that technologies are cultural creations encoding and accelerating the dreams and delusions of the societies that produce them Book Jacket

Technology and Culture in a European Context J. Orstrom Moller, 1991-01 *Technology, Culture and Communication* Jonathan Savage, Clive McGoun, 2012 Providing clear guidance on the underpinning theory and policy and drawing upon current initiatives in schools this book is essential reading for trainee and practising teachers wanting to know how the technology and media dimension can be delivered in practice *Children, Technology, and Culture* Ian Hutchby, Jo Moran-Ellis, 2001 The essays in this volume examine the interplay of children and technology and address critical questions about how we understand the nature of childhood in a modern technocratic society **Internet Technologies,**

Applications and Societal Impact Wojciech Cellary, Arun Iyengar, 2013-06-29 The 2002 IFIP Workshop on Internet Technologies Applications and Societal Impact WITASI 2002 held in Wroclaw Poland October 10 11 2002 presents different research aspects of the Internet both technical and societal The workshop aims at getting together scientists and practitioners from different research areas to work together on Internet development and reflect on Internet consequences to the economy and society The papers presented in these proceedings describe state of the art research in such areas of Internet applications as languages mobility multimedia quality of service voice over IP and wireless access A total of 40 papers were submitted to WITASI 2002 out of which 18 papers were selected for presentation at the workshop and inclusion in the proceedings The workshop also includes 4 invited papers WIT ASI 2002 was sponsored by IFIP the International Federation for Information Processing It was organized by Working Group WG 6 4 on Internet Applications Engineering of the Technical Committee TC 6 on Communication Systems Locally WITASI 2002 was organized by the Institute of Control and Systems Engineering Wroclaw University of Technology

Material Culture Kenneth L. Ames, 1985 *Technology & the West* Terry S. Reynolds, Stephen H. Cutcliffe, 1997 This broad ranging anthology provides a condensed overview of technology in Western civilization Its twenty one carefully selected articles and overview essays demonstrate the complex relationship between technological and social change from antiquity to the present Specific topics include the origins of contemporary social and political institutions in the irrigation civilizations of antiquity technology and the military popular perceptions of the early industrial revolution in Europe the difference between invention and innovation the role of government in the development of technology the nature of technical expertise and nuclear power and the environment General readers and students will find this collection accessible and engaging

Technological Development in China, India and Japan Erik Baark, Andrew Jamison, 1986-06-18 *Culture + Technology* Jennifer Daryl Slack, John Macgregor Wise, 2005 Culture Technology is an essential guide to the fascinating history of these debates and offers new perspectives that give readers the tools they need to make informed decisions about the role of technology in our lives In clear and compelling language Slack and Wise untangle and expose the cultural assumptions that underlie our thinking about technology stories so deeply held we often don't recognize their influence The book considers the perceived inevitability of technological advance and our myths about progress It also looks at sources of resistance to these stories from the Luddites of the 19th century to the Unabomber in our own time Slack and Wise help readers sift through the confusions about culture and technology that arise in their own everyday lives

Technology and Culture in Twentieth-century Mexico Araceli Tinajero, J. Brian Freeman, 2013 Technology and Culture in Twentieth Century Mexico offers a novel approach to Mexican studies by considering the complex relationship between technology politics society and culture While it is widely accepted by scholars that substantial changes in technology occurred in Mexico during the last century very little has been written on these issues perhaps because of a propensity to associate Mexico with tradition and folklore rather than

technology progress and modernity This diverse collection of chapters written by historians literary scholars social scientists and cultural critics tells this long neglected story of technological change Contributors examine themes ranging from the introduction of new forms of travel automobiles buses trains and subways to innovations in media radio film and the Internet to the relationships between technology literature art and architecture Covering the twentieth century and beyond Technology and Culture in Twentieth Century Mexico edited by Araceli Tinajero and J Brian Freeman illustrates the invention use and adaptation of technology as well as the diverse ways that technology itself is both shaped by and shapes culture This interdisciplinary book points to new directions in the study of Mexico and makes an important contribution to Latin American Studies and the history of technology Contributors Claudia Agostoni Sandra Aguilar Rodr guez Edward R Burian Antoni Castells Talens J Brian Freeman Celeste Gonz lez de Bustamante Guillermo Guajardo Joanne Hershfield Anna Indych L pez Lynda Klich Viviane Mahieux Carlos Monsiv is John Mraz Ricardo P rez Montfort Jos Manuel Ramos Rodr guez Paolo Riguzzi Erja Vettenranta Juan Villoro David M J Wood Naief Yehya

Teaching Contemporary Themes in Secondary Education: Technology, Culture and Communication Jonathan Savage, Clive McGoun, 2012-04-12 The media has a huge impact on how we view society and the world and new technologies continue to transform the way in which we work and learn It is therefore essential that young people can engage critically in their consumption of media and the internet and are able to make informed decisions about the technologies they use This book explores *Technology, Culture, Family* E. Silva, 2010-07-28 This book examines connections between personal relational and material matters in everyday life in the context of broader and long standing social problems It explores the connections between mundane practices in the reproduction of our bodies and our relations with those we live with and the technological practices that inform daily life

Cases on Higher Education Spaces: Innovation, Collaboration, and Technology Carpenter, Russell G., 2012-12-31 Higher education spaces are undergoing radical transformations in an attempt to respond to the needs of 21st century learners and a renewed interest in collaboration that spans beyond the walls of departments colleges and libraries Cases on Higher Education Spaces Innovation Collaboration and Technology highlights key innovations and collaborative ventures in space design from across campuses and institutions Including writing and communication centers studios libraries digital media labs learning commons and academic learning spaces this collection is ideally suited for university and professional administrators
