inflation taxation and property And they made creative use of India s institutions to bring checks and balances to the political system Democracy s persistence in India is uncommon among postcolonial societies By excavating a perspective of how Indians made and understood their own democracy and economy Aditya Balasubramanian broadens our picture of neoliberalism democracy and the postcolonial world *Sixties Radicalism and Social Movement Activism* Bryn Jones, Mike O'Donnell, 2012-10 This book s four main aims are to examine firstly why movements happened in the socio historical context of sixties radicalism secondly its distinctive legacy of crucial cultural societal and political interconnections thirdly continuing links between seminal ideas and movements and socio political activism today fourthly little discussed national instances and divergent impacts of sixties radicalism in relation to contemporary global social movements A conclusion traces all these dimensions from current social movements back to sixties radicalism s pioneering upheavals *In Truth* Matthew Fraser, 2020-03-27 From ancient Rome to the current Internet age this sweeping history of ideas explores how different epochs wrestled with the issue of truth and lies From the ancient Greeks and Romans to the modern era how have people determined what is true How have those with power and influence sought to control the narrative Are we living in a post truth era or is that notion simply the latest attempt to control the narrative The relationship between truth and power is the key theme Moving through major historical periods the author focuses on notable people and events from well known leaders like Julius Caesar and Adolf Hitler to lesser known individuals like Procopius and Savonarola He notes distinct parallels in history to current events Julius Caesar s publication of his Gallic Wars and Civil Wars was an early exercise in political spin not unlike what we see today During the English Civil War and the Enlightenment pamphleteering coupled with the new power of the printing press challenged the status quo as online and social media does in our time And fake news was already being used by German chancellor Otto von Bismarck in nineteenth century Europe and by the yellow journalism of American newspaper magnates William Randolph Hearst and Joseph Pulitzer near the turn of the twentieth century The author concludes optimistically noting that we are debating and discussing truth more fiercely today than in any previous era The determination to arrive at the truth despite the manipulations of the powerful bodes well for the future of democracy *The British Library General Catalogue of Printed Books, 1986 to 1987* British Library, 1988 *Arts & Humanities Citation Index*, 1998 **Proceedings of the 4th International Conference on Progressive Education 2022 (ICOPE 2022)** Ryzal Perdana, Sunyono, Gede Eka Putrawan, Trio Yuda Septiawan, Bayu Saputra, 2023-05-27 This is an open access book *Fostering Synergy and Innovation in Digital Learning Environments* The 4th ICOPE 2022 is an international conference in education with the theme of fostering synergy and innovation in digital learning environments It is organized by the faculty of teacher training and education at the University of Lampung Indonesia Bandar Lampung the capital city of Lampung Province will be the host of this event It will be taken place on the 15th 16th of October 2022 This conference involves keynote speakers from Indonesia USA Malaysia and Australia It is intended to be a forum to convey specific alternatives and significant

Coy,Henry Burnside Smith,William Barnard Mooney,1896 **Work, Sleep, Repeat** Felix Stein,2020-07-12 Work Sleep Repeat is a fascinating account of the work regime of German management consultants Examining one of the most sought after and secretive graduate professions the book provides a first hand account of the boardroom culture of Europe s strongest economy Analyzing how knowledge and power operate in this sector Felix Stein explores a number of paradoxes For example while it is the job of management consultants to analyse the activities of other employees they actually spend most of their time in luxurious seclusion away from them In addition despite having a strong sense of the importance of their work consultants often find it difficult to explain to outsiders what it is they do The book addresses these and other paradoxes by arguing that consultants are engaged in abstract labour Anthropologists have long struggled with the question of how to describe contemporary work regimes which do not produce anything tangible Stein demonstrates that elite work is predominantly abstract in the fourfold sense that it is epistemically removed from the object of analysis emotionally detached from it several steps away from the assumed sources of economic value creation and increasingly hard to grasp In doing so he offers new ways to think about white collar work and elites in the 21st century and establishes the notion of abstract labour as a key category in social anthropology Insights and Interpretations Colum Hourihane,2002 Established in 1917 the Index of Christian Art located at Princeton University is now the largest archive of medieval art in existence and the most specialized resource for the iconographer Throughout its eighty five years it has justly been recognized as one of the most learned institutions for the study of the art and culture of the medieval world The essays in this book all by staff or scholars of the archive highlight some of the current research in the archive and the scholarship for which it has been widely renowned The studies cover art from the Late Antique period to the end of the fifteenth century and include most of the media represented in the archive from manuscripts to sculpture to glass From reinterpreting previous scholarship to making new insights into the medieval mind they explore such themes as Jephtha s Daughter Mary Magdalene Saints Blaise Paul Joseph and Elisabeth of Hungary and

topics including women in the Bibles moralis es Late German sermons the iconographic program at Bourges Cathedral Franciscan devotional art and a late medieval Islamic manuscript This volume presents some of the most exciting and interdisciplinary approaches to the study of these subjects from the home of medieval iconography in Princeton The contributors are Adelaide Bennett Lois Drewer Ivan Great Judith Golden Gerald Guest Margaret Jennings Margaret Lindsey Mika Natif Lynn Ransom Pamela Sheingorn and A E Wright **Books In Print 2001-2002** R R Bowker Publishing,2001-09
